MULESOFT CERTIFIED
Developer
LEVEL 1

## PROFFESIONAL SUMMARY

- ✓ Having 5+ years of experience in Software Development Life Cycle of which 3+ years of Experience into MuleSoft Anypoint Platform (Mule ESB, RAML 0.8,1.0)
- ✓ Experience in Mulesoft Anypoint Platform, Enterprise Service Bus and API management.
- ✓ Having experience in designing Flows, Sub Flows, and Exception handling strategies, Data Weave transformation and Mule Expression Language(MEL).
- ✓ Experience in designing and developing RAML based APIs using Anypoint API platform.
- ✓ Integration Experience with SFDC, Web services, Service Now, Database and Other File Based legacy systems like SFTP.
- ✓ Exposure to Mule Anypoint platform components (Anypoint studio, Anypoint API designer, Anypoint API manager, Anypoint connectors, Anypoint APIportal).
- ✓ Good experience with Credentials Vault (Secure Property Placeholder), a critical piece in application development in MuleSoft.
- ✓ Developing Mule ESB projects for the services with synchronous and asynchronous Mule flows.
- ✓ Knowledge on applying policies like rate limiting, SLA tiers, OAuth to the deployed interfaces on cloud.
- ✓ Implemented flows using Anypoint studio based on the client requirements.
- ✓ Hands-on Experience in writing the DataWeave Language.
- ✓ Hands on experience in Mule Expression Language (MEL) to access payload data, properties and variables of Mule Message Flow.
- ✓ Good understanding of Software Development Life Cycle (SDLC) process in the areas of analysis, design, implementation and testing of software applications using Mule ESB technologies.
- ✓ Experience working in an agile development environment.
- ✓ Involved in managing cloud deployments and APIs.

## TECHNICAL SKILLS

| INTEGRATION TECHNOLOGY | Mule ESB(3.x and 4.x) |
|---|---|
| IDE | Anypoint Studio |
| Data Bases | My SQL, SQL |
| Web Services | SOAP, REST |
| Markup Languages | HTML, XML and JSON |
| Operating Systems | Windows , Unix |
| Other Tools | Service Now , Postman |
| Version Control | GIT Hub |

## Work Experience:

✓ Working as a MuleSoft Developer at IBM, (payroll CBSI India Pvt Ltd) December 2021 to December 2022.

✓ Worked as a MuleSoft Developer at TechMahindra, (payroll Keysoft infotech solutions) September 2019 to November 2021.

✓ Worked as a Software Tester at Deloitte, (payroll Keysoft infotech solutions) Since July 2018 to September 2019.

**Project#1:**

**Project Name** : **Truist**

**Client** : **Banking Client**

**Role** : **Mulesoft Developer**

**Duration** : **Dec 2021 to Dec 2022**

**Environment** : **Any point Studio.**

**Project Description**: The Truist Financial Corporation is an American bank holding company. The company was formed as the result of merger of BB&T and Sun Trust Banks. It offers consumer and commercial banking , securities brokerage, asset management, mortgage, and insurance products and services. It is on the list of largest banks in the United States by assests.

**Responsibilities:**

✓ Created Mule Flows using End Point Connectors & Components using Mule ESB to integrate client/server systems.

✓ Implemented integration flows using Mule Anypoint Studio to connect to REST, SOAP service, Oracle Database.

✓ Developing flows / orchestrations for integrating the components written on topof different internal platforms using Mule ESB and ActiveMQ.

✓ Experience in integrating Cloud applications like SFDC, Workday & Intact using MuleSoft ESB.

✓ Experience in integrating of different systems that includes Data Base, JMS.

✓ Involved in Transformations using Data Weave to transform data from one formatto another format using Mule ESB.

✓ Involved in creating http inbound & outbound flows and orchestration using Mule ESB.

✓ Implemented RAML files for different entity creations and respective associations.

✓ Implemented and used Web Services with the help of WSDL and SOAP to get updates from the third parties.

✓ Used Mule soft logger for logging and debugging of the application.

✓ Business requirements analysis by interacting with the Lead/Architect.

**Project#2:**
**Project Name**      **: Delaware**
**Client**      **: Insurance Client**
**Role**      **: Mulesoft Developer**
**Duration**      **: June 2020 to Nov 2021**
**Environment**      **: JDK, Any point Studio, Mule Runtime 4.X, RAML 1.0,**

**Project Description:** The Delaware Enterprises, Inc. is a diverse holding company composed of financial services, industrial equipment. They are well known throughout the life insurance, annuity and retirement services industry and viewed as among the most stable, privately held financial services companies in the U.S.

Responsibilities:

✓ Created Mule Flows using End Point Connectors & Components using Mule ESB to integrate client/server systems.

✓ Implemented integration flows using Mule Anypoint Studio to connect to REST, SOAP service, Oracle Database.

✓ Developing flows / orchestrations for integrating the components written on topof different internal platforms using Mule ESB and ActiveMQ.

✓ Experience in integrating Cloud applications like SFDC, Workday & Intact using MuleSoft ESB.

✓ Experience in integrating of different systems that includes Data Base, JMS.

- ✓ Involved in Transformations using Data Weave to transform data from one formatto another format using Mule ESB.

- ✓ Involved in creating http inbound & outbound flows and orchestration using Mule ESB.   ✓ Worked with Mule Soft Anypoint API Platform on designing the RAML for implementing REST API's

- ✓ Implemented RAML files for different entity creations and respective associations.

- ✓ Implemented and used Web Services with the help of WSDL and SOAP to get updates from the third parties.

- ✓ Used Mule soft logger for logging and debugging of the application.

- ✓ Business requirements analysis by interacting with the Lead/Architect.

**Environment:** Mule ESB 4.2.2, Anypoint Studio 7.x, SOAP/Restful Web services, XML, API Manager, Anypoint Platform, CloudHub, SFTP, GIT,  Postman.

**Project#3:**

| | |
|---|---|
| **Project Name** | **: Tathkarah** |
| **Client** | **: Galileo Kuwait** |
| **Role** | **: Mulesoft Developer** |
| **Duration** | **: September 2019 to  June 2020** |
| **Environment** | **: JDK, Any point Studio, Mule Runtime 4.X, RAML 1.0, CloudHub.** |

**Project Description:** Tathkarah is a Kuwait project which is online booking for flight ticket by using the new technology. Devices to short up time and effort for travelers who do not want to visit travel agencies to book their flights. Tathkarah is 24/7 project where you can book your flight tickets at any time at any day.

**Responsibilities:**

- ✓ Created Mule Flows using End Point Connectors & Components using Mule ESB to integrate client/server systems.

- ✓ Implemented integration flows using Mule Anypoint Studio to connect to REST, SOAP service, Oracle Database.

- ✓ Developing flows / orchestrations for integrating the components writtenon top of different internal platforms using Mule ESB and ActiveMQ.

- ✓ Experience in integrating Cloud applications like SFDC, Workday & Intact using MuleSoft ESB.

- ✓ Experience in integrating of different systems that includes Data Base, JMS.

- ✓ Involved in Transformations using Data Weave to transform data from one formatto another format using Mule ESB.

- ✓ Involved in creating http inbound & outbound flows and orchestration using Mule ESB.

- ✓ Deployed Mule Applications on Mule Anypoint studio.

**PROJECT#4**

| | |
|---|---|
| **Project** | **: E-Banking** |
| **Client** | **: My State Limited, Australia** |
| **Testing Approach** | **: Manual** |

**Role** : **Software Test Engineer**
**Duration** : **April 2018 to September 2019**
**Project Description:**

  E-Banking is a web based and offers a full service such as personal, corporate and International Banking Services in the Australia. The Bank delivers its products and services through Internet.
**Responsibilities:**

- ✓ Detailed study of major enhancements and requirement analysis.
- ✓ Writing scenarios and test cases for enhancements.
- ✓ Actively participated in Reviews and design of test cases.
- ✓ Involved in Sanity, Integration, System and Regression Testing.
- ✓ Responsible for executing the test cases.
- ✓ Involved in preparation of Traceability Matrix.
- ✓ Reporting the Defects using bug tool, a defect tracking tool using JIRA.

**PERSONAL DETAILS:**

Name :          MOHAMMAD JAVED MUJTABA KHAN
 Father Name:  M.A Raheman Khan
 DOB :          16-02-1991
 Address : Hno: 6-2-822/A Hussinspura,
                 karimnagar   Telangana, 505001.

 **DECLARATION:**

 I hereby declare that the above given information is true to best of my knowledge.

 Date:                                                                                    (JAVED KHAN)
