PROJECTS

1. Communication platform

WhitehatJr is an ed-tech startup, providing online classes to their students. We built a system i.e communication platform to communicate with the students, parents and teachers..etc. The platform allows multiple communication ways email, sms, whatsapp, chatbot and FBM etc.

2. Lendingkart credit

Lendingkart Technologies Private Limited is a fin-tech startup in the working capital space, providing short-term loans for small businesses without paperwork. Lendingkart product facilitates lenders to evaluate borrower's credit worthiness and provides other related services. We can automate the loans by using this product.

3. CIS

Lendingkart started a new product called CIS(credit intelligence service) which provides the credit data to the lenders/clients. Lenders evaluate the customers credit score, eligibility amount and risk by using this product.
