Experience

Virtusa Consulting Services / Senior Consultant - Technology

December 2020 - Present, Pune India

Project Name: HSBC - Hongkong and Shanghai Banking Corporation Software Development India- Pune, India

Working on an HSBC Project application for HSBC - Hongkong and Shanghai Banking Corporation Software Development, UK. This is an Agile Project that builds, maintains and supports software.

Responsibilities include driving full-stack end to end solutions based on daily conversations with the product owner.

Enabling the team to effectively gather requirements for each feature, remove blockers and drive the project forward per the committed roadmap.

Supporting the product owner in making technology and architecture related decisions to groom the backlog as well as help in prioritising features.

Drive effective team behaviours and where applicable work processes in place to avoid chaos.

Solving challenges posed by large scale and high technology applications.

Supporting the Infrastructure and applications that one works on.

Also, includes Devops role and include L2/L3 production support responsibilities.

Team Size: 11 - this includes Developers, Testers, Business people, Software Architect, Product Owner and Scrum Master.

LTI - Larsen & Toubro Infotech / Senior Software Engineer

January 2019 - November 2019, Ballerup Denmark

December 2019 - December 2020, Pune India

Project Name: Velliv (former Nordea Life and Pensions) Denmark - Decentral Java Applications

Worked on Pension Portal application for Velliv, Denmark. This application is built on Angular at front end and Java at the backend. It facilitates the Customer Company administrators to enroll new employees and also modification of their information.

Responsibilities include requirement gathering, coordination with other teams (OSB, BPM, Mainframe), development of MVP, presentation to stakeholders, completion of development according to prototype, monthly minor releases, quarterly major release, etc.

We followed Scrum methodology while development, having daily standups, planning meetings, backlog refinement and review meetings at sprint end.

Team Size: 9 - this includes 2 Developers (1 Frontend, and 1 Backend) 2 Testers, 2 Business People, Software Architect, Product Owner and Scrum Master.

LTI - Larsen & Toubro Infotech / Software Engineer

February 2016 - January 2019, Pune India

Project Name: Velliv (former Nordea Life and Pensions) Denmark - Decentral Java Applications

Project Description: The purpose of the project was to develop, support and maintain Velliv (former Nordea Life and Pensions), Denmark applications.

Responsibilities include developing backend for Going Mobile (Mobile application). Also worked on its Net Pension Application. It is a web application which has two role based functionality. First is for individual customers, where they can see their policy information, insurance cover, benefits, check documents, modify personal information, etc. And the second is for company administrators, where they can create new employees, change their information, resign employee, etc.

Responsibility also includes maintenance and supporting its other 6 dependent Java applications.

Team Size: 15

LTI - Larsen & Toubro Infotech / Graduate Engineer Trainee

October 2015 - January 2016, Mumbai India
