EXPERIENCE

Salesforce Developer

Nimble AMS

2018 - Ongoing Pune, Maharashtra

Nimble AMS is a robust association member management solution that is built on Salesforce cloud technology. Nimble AMS is the leading provider of cloud-based software to associations. Nimble AMS helps associations to achieve their missions by creating tools to enrich their member community and accomplish their vision.

Role:

- Working with the Core R&D team where we use to analyze new features and build logic accordingly.
- Worked on features like Hosted Payment, Recurring and Schedule Payments, I18N, WCAG and NPS Measurement.
- Worked on multiple Apex classes and VisualForce Pages. Built many LWC, Aura and VisualForce components.
- Expertise in Unit Testing.
- Worked on Administrative setup.

PROJECT

QUESTION AND ANSWERING BASED ON NLP

09/2017 - 04/2018 Dahod, Gujarat

Platform: Python 3.0

- Question and Answering is an application of Natural Language Processing, where we have reduced the communication gap between humans and computers.
- In today's era operating database plays a major role in accessing information efficiently. But the users who are unaware of that restrict them to access the database. Thus, for that, a system that enables the access of these databases even for non-expert users and provides relevant answers to the input questions by users in a reasonable time.
