SUMMARY

Proactive tableau developer with 4+ years of experience in interpreting and analyzing data for driving business solution using BI tool- Tableau. Proficient knowledge in preparing interactive dashboard, Data visualizations, analytics using Tableau Desktop. Good understanding of technical trends, architectures & highly motivated to adapt latest technologies, new software and products.

Project 1: KPIs

YoY Growth, Top N & Bottom N by profit, Total sales & profit by country, Sales & Revenue by drug type, Operational Parameters.

Project 2: KPIs

Total sales by region & Market segment, YoY Growth, Top N & Bottom N pharmacy by profit, Top in demand drugs, Distribution cost.

KEY SKILLS & TOOLS

- BUSINESS INTELLIGENCE TOOLS
Tableau Desktop | MIS | MS EXCEL
- PROGRAMMING LANGUAGES
SQL | SQL Server |Macros |VBA
- CONCEPT & FRAMEWORK
Agile | Scrum | SDLC | DWH
- SUPPORTING TOOLS
JIRA | MS Outlook |MS Office

CERTIFICATIONS & AWARDS

- Best Paper award in IEEE Conference in 2017.
- Published paper in SCOPUS Indexed (Quartile Q1).
- Agile Methodology certificate.
- Scrum foundation certificate.
- .NET Certified

PROFESSIONAL EXPERIENCE

Versatile Softwares Pvt Ltd

Tableau Developer

Bangalore, India

 Nov'19 – Till date

Roles & Responsibilities

- Create dashboards by extracting data source & develop analytical reports & visualization using Tableau Desktop.
- Deploy different visualizations using charts like Bar chart, Line chart, Symbol map, Pie chart, Scatter plot, advanced charts like Pareto Chart, Bar in Bar Chart, Lollipop Chart, Donut Chart, Radial chart, Sankey chart ,Tree map, Dual Axis chart, motion chart, calendar chart and blended axis chart.
- Experienced in creating hierarchies, sets, groups, applying Extract filters, Data source filters, Context filters, Dimension filter, Measure filters and Action filters.
- Write various LOD expressions as well as table calculations.
- Knowledge of Joins, Blending, Relationship, Calculation fields and Parameters.
- Worked with multiple data connections like MS Excel, CSV, PDF, MySQL, SQL Server Management Studio, Cloudera Hadoop.
- Hands in experience on DWH, SQL, OLAP, OLTP, Facts and Dimension Tables.
- Develop tableau workbooks to perform YTD, QTD, MTD, PYTD & YoY analysis.
- Demonstrate a strong sense of visual design & interest in creative visualization .

Projects Summary

❖ Project 1: Pharmaceutical Drug Analysis

- Participated in project planning sessions with project managers, Team lead and team members to analyse business requirements and outline the proposed solution.
- Successfully delivered the dashboards with migration of data source from TD to BQ.
- Successfully validated data with TD & BQ data sources & viz data from dashboards.
- Keeping work track through Jira.
- Time line Analysis carried with YTD, PYTD and YoY growth with respect to the sales.
- Worked on group, top & bottom sales using sets, LOD, Filters, parameters, Animation, calculated fields, table calculations to make charts fields dynamic.

❖ Project 2: Pharmacy Management system

- Created Interactive Dashboard with KPIs with respect to project requirements.
- Worked on advance charts for efficient visualizations.
- Analysis carried with YTD, QTD, MTD, PYTD and YoY growth with respect to the sales.
- Worked on parameters, sets and calculated fields to make charts fields dynamic
- Successfully created interactive dashboards & published them on both prod & non-prod Tableau Server.
