12.5 years of experience in Oracle Fusion Middleware - Oracle SOA and BPEL (11g/12c), ORACLE Service Bus 11g/12c,OIC

Pawan Kumar Viswanath
Personal Email: pawan924@gmail.com
Mobile: +91-9073989489
Primary Skill – Oracle SOA BPEL ,OSB,OIC

Professional Summary

- **12.4 years** of IT experience which includes managing team, design and development of various applications in Service Oriented Architecture and web server technologies.
- Worked on **AGILE methods** ,**SOA 11g,SOA 12c,OSB 12c**, **OICS,OSB 11g,OSB 12c ,AIA Foundation Pack and SOACS Orchestration , Integration Technologies in the areas of Web Services, Mediator, SOAP, WSDL, BPEL, XML, XSD, and XML.**
- Expertise in Business Process Integration, Service Orchestration, and Routing using Oracle SOA Suite Fusion Products **(BPEL, Mediator, ESB and Web Services**).
- Extensive knowledge **on Oracle fusion middleware products like OSB, BPEL Process Manager, SOA Suite, Mediator, ESB and JDeveloper**.
- Worked on orchestration of End-to-End BPEL process using various Design Patterns.
- Expertise in Cutting Edge Technologies like **Web Services, SOA,OSB, ESB, BPEL, WSDL, SOAP, XML, XSL, XSD.**
- Implemented Oracle **ESB** (Enterprise Service Bus) and integrated with **BPEL**.
- Implemented best practices such as error handling in Oracle **Mediator.**
- Developed BPEL processes that contain **Exception handling** to capture the **Remote** and **Binding** faults.
- Created Business Services and Proxy services in OSB.
- Design and implement error handling using the Fault Handling Framework.
- Technically good in **BPEL, OSB, ESB, XML, XSLT, WSDL**
- Developed BPEL, Web Services with WSDL, SOAP, XML technologies.
- Strong **debugging** and problem solving skills of system development methodologies, techniques and tools.

Professional Experience

1) **Working as Middleware Consultant in IBM India ltd from 10th June 2019 to till date.**

2) **Worked as Middleware Consultant in Larsen and Toubro Infotech from 18th August 2018 to 24th May 2019.**

3) **Worked as Senior Solution Integrator in Ericsson from 20th Feb 2017 to 14th August 2018.**

4) **Worked as SeniorAnalyst in Accenture from 24th Aug 2015 to 3rd January 2017.**

5)   **Worked as an Associate in COGNIZANT TECHNOLOGY SOLUTIONS from 17th Feb 2014 to 21st Aug 2015**

6) **Worked as an Software Engineer in WIPRO TECHNOLOGIES from 12th Feb 2011 to 11th Feb 2014.**

Onsite Experience

Been to Nigeria (client location) once for one of our project requirements.

Roles and Responsibilities at Onsite:

- Requirement gathering.
- Design discussion and finalization.
- Deploy Business Processes Orchestrated in BPEL and OSB for GO-LIVE.
- Analyze the requirements and subsequently development of the integration module.
- Implementation and development of Oracle Mediator module.

Technical Skills

Integration Technologies	OICS,Oracle Fusion MW BPEL, Mediator,Oracle Service Bus(OSB),SOACS
Integration Framework	Oracle Application Integration Architecture(AIA Foundation Pack)
Web Technologies	XML, XSD, XSL
Languages	C
IDE & Editors	JDeveloper, Edit Plus, Soap UI ,XML SPY,Eclipse
Web/Application Servers	Web Logic 9.2,10.3
Tools/Adaptors	JDevloper(11g and 12c),DBAdaptor,File Adaptor, JMS Adaptor.
Operating Systems	Windows 98, 2000,2003,XP
Middleware Products	Oracle SOA Suit 11g ,12c (Oracle ESB, BPEL, Mediator),Oracle Service Bus(OSB)
Database	Oracle 9i,10g

Projects Profile

At IBM

Project #1

Client   : Ma'aden
Project   : Project Solid
Role   : SOA/OIC Developer
Domain   : Retail

Description :

MA'ADEN (Saudi Arabian Mining Co.) is a diversified mining company, active in gold, base metals, mining and infrastructure industry. Ma'aden was formed as a Saudi joint stock company on 23 March 1997 for the purpose of facilitating the development of Saudi Arabia's mineral resources. It is the largest mining company in Saudi Arabia. The Saudi government still owns 50% of its shares while the remaining 50% are listed in Tadawul (Stock Market). The company is structured with corporate headquarters in Riyadh with several subsidiaries.

Roles and Responsibilities:

- Working on Production support for different applications as a Module Lead. Orchestrated in BPEL and Mediator using Oracle Jdeveloper and SOA Suite 12c,SOACS
- Developed the complex services for HR and Payroll using SOA and OIC.
- Created JNDI's For Database and JMS adapters
- Implementing Oracle Mediator and integrating with BPEL.
- Integrating with client and updating the status.
- Worked in the development with BPEL and OSB.
- Responsible for end to end testing of services and debugging of the errors if found.
- Responsible for preparation of all kind of Service Contracts and Low level Designs Diagrams documents

At Larsen and Tourbo

Project #1

Client   : Nordea
Role   : SOA/OSB,SOACS Developer
Domain   : Retail

Description :

Nordea, is a Nordic financial services group operating in northern Europe and based in Helsinki, Finland.[5] The bank is the result of the successive mergers and acquisitions of the Finnish, Danish, Norwegian and Swedish banks of Merita Bank, Unibank, Kreditkassen (Christiania Bank) and Nordbanken that took place between 1997 and 2000. The Baltic states are today also considered part of the home market. The largest shareholder of Nordea is Sampo, a Finnish insurance company with around 20% of the shares.

a) **Roles and Responsibilities in Nordea Denmark :**

- Worked on migration of different Lotus Notes applications as a Module Lead in Agile methodology.
- Was involved in developing different complex OSB message flows.
- Was also involved in developing different complex orchestrations with Oracle BPEL.
- Responsible for updating the status to client on timely basis.
- Responsible for preparation of all kind of Service Contracts and RFP documents.

b) **Roles and Responsibilities in Nordea Finland :**

- Working on migration of different Lotus Notes applications as a Module Lead in Agile methodology.
- Involved in developing and orchestrating the services in SOA cloud platform.

- Was also involved in the team responsible for deployment of services in cloud platform.
- Responsible for updating the status to client on timely basis.
- Responsible for preparation of all kind of Service Contracts and RFP documents.

At Ericsson

Project #1

Client : **Entel-RLAM**
Role : **SOA/OSB Developer**
Domain : **Telecom**

Description :

Empresa Nacional de Telecomunicaciones S.A. (doing business as Entel-Chile S.A.)It is the largest Chilean telecommunications company. The company is known for the 127 meter high Torre Entel (Entel Tower) that rises high above central Santiago and constitutes one of the city's landmarks.

As of December 2013 Entel PCS had 38.8% of the Chilean mobile market. It was the first American operator to launch a GSM mobile network in 1997. In 2000, the Entel PCS network offered support for GPRS and in 2003 it added EDGE support.

Roles and Responsibilities:

- Working on Production support for different applications as a Module Lead. Orchestrated in BPEL and Mediator using Oracle Jdeveloper and SOA Suite 12c
- Developed the OSB Proxy services and Business Services.
- Created JNDI's For Database and JMS adapters
- Implementing Oracle Mediator and integrating with BPEL.
- Integrating with client and updating the status.
- Worked in the development with BPEL and OSB.
- Responsible for end to end testing of services and debugging of the errors if found.
- Responsible for preparation of all kind of Service Contracts and Low level Designs Diagrams documents

At Accenture

Client : **Acher Daniels Midland, US**
Role : **Oracle SOA/BPEL Developer**
Domain : **Retail**
Duration : **Aug 2015 to Jan 2017**
Environment : Web Services, XML, Oracle SOA Suite 12c, Database,BPEL, Oracle Business Rule, Oracle Mediator.

Description:

The Archer Daniels Midland Company (ADM) is an American global food processing and commodities trading corporation, headquartered in Chicago, Illinois. The company operates more than 270 plants and 420 crop procurement facilities worldwide, where cereal grains and oilseeds are processed into products used in food, beverage, nutraceutical, industrial, and animal feed markets worldwide

Roles and Responsibilities:

- Design, develop and deploy Business Processes Orchestrated in BPEL and Mediator using Oracle Jdeveloper and SOA Suite 12c
- Developed the OSB Proxy services and Business Services.
- Implementation and development of Oracle Mediator module.
- Worked on JMS, Database, File adapters for Oracle Mediator. Setup and configured them as well.
- Developed BPEL processes that contain exception handling to capture the Remote and Binding faults.
- Worked with Fault Policies to handle technical fault
- Created JNDI's For Database and JMS adapters
- Worked with File and FTP adapter.

At Cognizant

Project #1

Client   : WyndhamExchangeAndRentals, US
Role   : Oracle SOA/BPEL Developer
Domain   : Travel and Hospitality
Duration   : Feb'14 to Aug'15
Environment : Web Services, XML, Oracle SOA Suite 11g, Database, AIA, JPA, BPEL, Oracle Business Rule, Oracle Mediator, Human Workflow.

Description:

The Project is developed for RCI, USA. Through this site, the customer can view his/her availability in different hotels registered under RCI for travel purpose in all over the world.

Roles and Responsibilities:

- Design, develop and deploy Business Processes Orchestrated in BPEL and Mediator using Oracle Jdeveloper and SOA Suite 11g
- Developed the OSB Proxy services and Business Services.
- Implementation and development of Oracle Mediator module.
- Have worked on JMS, Database, File adapters for Oracle Mediator. Setup and configured them as well.
- Designed and implemented Business Processes using Oracle BPEL PM, JDeveloper.
- Implemented Oracle Mediator and integrated with BPEL.
- Developed BPEL processes that contain exception handling to capture the Remote and Binding faults.
- Worked with Fault Policies to handle technical faults.

- Using JDeveloper as the development environment.
- Created JNDI's For Database and JMS adapters
- Worked with File and FTP adapters
- Worked with Oracle Apps Adapter to connect with Oracle E-business suite application.
- Implemented best practices such as error handling and file archiving in Oracle Mediator

At Wipro

<u>Project #1</u>

Client   :   **MTN Nigeria Implementation, Nigeria**
Role   :   **Oracle SOA/BPEL and OSB Developer**
Domain   :   **Telecom**
Environment : Web Services, XML, Oracle SOA Suite 11g, Database, AIA, BPEL, Oracle Mediator

Description :

MTN Group Limited ,formerly M-Cell is a South Africa-
based multinational mobile telecommunications company, operating in
many African, European and Asian countries. Its head office is in Johannesburg. As of 30 June 2016,
MTN recorded 232,6 million subscribers across its operations.
Although MTN operates in over 20 countries, one-third of its revenues come from Nigeria, where it
holds about 35% market share.

Roles and Responsibilities:

- Worked on **Oracle Fusion Middleware (Oracle SOA 11g,BPEL,OSB)**
- Responsible for the mapping of the Siebel CRM data with the Sales Order data acquired from the customer.
- Responsible for creation and maintenance of different services based on the requirement.
- Responsible for all types Query and Update types of services present in both **OSB** and **SOA.**
- Responsible for transformation activities between different source and target systems.
- Responsible for end to end testing of services and debugging of the errors if found.
- Responsible for preparation of all kind of Service Contracts and Low level Designs Diagrams documents
- Understanding the requirements and design specifications.
- Involved in creating BPEL process.

- Analyze the requirements and subsequently development of the integration module.

- Designed and implemented business process using Oracle BPEL PM, JDeveloper.

- Design, develop and deploy Business Processes Orchestrated in BPEL and Mediator using Oracle JDeveloper and SOA Suite 11g.

- Developed BPEL process that contains Exceptions Handling to capture the remote and binding faults.

- Coordinating the partners and send them updates on new developments.

- Using JDeveloper as a development environment conversation of different formats in each other.

- Implemented best practices such as Error Handling, File Archiving in Oracle Mediator.

- Implementing Oracle Mediator and integrating with BPEL.

- Integrating with client and updating the status.

- Worked in the development with BPEL and OSB.

- Developed the Adaptors (DB and File).

- **Been to Nigeria (Client Location) also for production support of an project.**
- **ORACLE AIA Certified with 86%.**
- **ORACLE SOA SUITE 12C certified with 76%**

Client Certifications/Rewards :

1) **Client appreciation certificate from Entel-RLAM in Ericsson.**
2) **Star award in Ericsson**

Academic Qualification:
- B. Tech in EEE from College Of Engineering, Bhubaneswar in the year 2009 with **73.55%.**

- 12th from Zinc Smelter Senior Secondary School, Vishakhapatnam in the year 2005 with **71%.**

- 10th from Kendriya Vidyalaya, Bondamunda in the year 2003 with **72.4%.**

Extracurricular Activities

- Represented School Volleyball Team on District Level.
- Represented College Volleyball Team on University Level.
