- **Workato automation pro 2** certified.
- **Workato automation pro 3** certified.

### TECHNICAL SKILLS

Skills/ Tools	<b>Integration/automation platform</b> : Mulesoft, Workato <b>Anypoint Platform</b> : ESB, Anypoint API Designer, Cloud Hub, Runtime Manager, Anypoint Studio, RAML, API manager and Monitoring <b>Web</b> : HTTP, XML, JSON <b>Connectors/Triggers</b> : HTTP, Database, File, FTP/SFTP and Salesforce. <b>Message Transformation</b> : JSON, XML, Dataweave <b>Programming languages</b> : Java, C, C++ <b>Tools</b> :- Bitbucket, JIRA
Migration, CI/CD	Github, Maven, bitbucket

## **EXPERIENCE SUMMARY**

### **Project #1:**

Project Title	Hospital management
Technologies	<b>Python, Django, GCP, MongoDB, MS Excel</b>
Duration	<b>August 2021 to January 2022</b>
Description	On the hospital management portal, there was a module of generating reports on the basis of answers provided by patients. There were 40 questions on google form where the patient has to fill the answer on the basis of disease and daily lifestyle. I worked on managing patient records of QA sessions, which will be stored in excel sheets via GCP API and have to generate UI reports which are downloadable for the patient.

### **Project #2:**

Project Title	Banking system
Technologies	<b>MuleSoft:</b> Anypoint API Designer, Cloud Hub, Runtime Manager, Anypoint Studio, Exchange and MySQL server
Duration	<b>January 2021 to March 2021</b>

### **Project #3:**

Project Title	Greetings automation
Technologies	<b>Workato:</b> Spreadsheet, MySQL, Slack
Duration	<b>OCT 2021 to Nov 2021</b>
Description	Created an automation for greeting employees on Slack. Whenever the candidate joins the organization or on birthday and daily morning greet will be hit on Slack accordingly

### **Project #4:**

Project Title	JIRA Slack workbot integration
Technologies	<b>Workato:</b> JIRA, JIRA APIs, Slack, Salesforce, Gmail
Duration	<b>Nov 2021 to January 2022</b>
Description	Created an automation for generating the tickets from Slack itself and once the ticket is generated then the developer got an notification on Slack regarding the JIRA ticket and the details of the ticket with employee details stored in Salesforce in contact object.

### **Project #5:**

Project Title	BH-Workday integration
Technologies	<b>Workato</b>

Duration	Jan 2022 to June 2022
Description	Integration with BullHorn and Workday where employees data submitted by users on BullHorn has to update Workday with all the validations.

**Project #6:**

Project Title	SF DB integration
Technologies	<b>Workato:</b> Salesforce , MySQL, scheduler
Duration	<b>August 2022</b>
Description	Worked on Integration with MySQL and Salesforce where information needs to be share on the specific time period.

**Project #7:**

Project Title	Medical Insurance
Technologies	<b>MuleSoft:</b> Anypoint API Designer, Cloud Hub, Runtime Manager, Anypoint Studio, Exchange and SQL server, Dataweave, API manager
Duration	<b>August 2022 to Feb 2023</b>
Description	As a backend developer, I manage end to end workflows where I work on a daily basis requirement of an insurance portal where I have to manage different roles like Benefit manager, market admin, member, System admin and provider. Each role has its own responsibilities to provide a valuable campaign to the customer.
