- Embedded Tableau dashboards on external websites

- Worked under Agile model to develop the Tableau Dashboards

- Responsible for end-to-end testing of Tableau dashboards which are developed by team.

PROJECT EXPERIENCE

Synechron Technologies PVT Ltd (Oct 2021- Present)

Designation: Lead Technology

Project 1: Market Risk (December 2022- December 2023)

Client: Citi Bank

Role: Senior Tableau Developer

Responsibilities:

• Development of dynamic and interactive Tableau dashboards, ensuring a seamless alignment with the organization's strategic goals.

• These dashboards played a crucial role in providing actionable insights for key stakeholders involved in market risk management.

• Beyond the creation of visually compelling data visualizations, I was instrumental in user access management, troubleshooting, and conducting training sessions for enhanced user proficiency within the specific context of market risk analytics.

Project 2: Citi Insight (Oct 2021-Nov 2022)

Client: Citi Bank

Role: Senior Tableau Developer

Responsibilities:

• Created Oracle Tables and loaded data into these tables from Sybase database tables through Ab-Initio
• After migration of reports performed end to end report testing on Citi Platform and decommissioned

Sybase based reports from Platform.

• Worked on Tableau performance improvement POC's with the help of multiple data sources like Impala, Oracle, Oracle MV, CSV based Extracts, Tableau Hyper API.

• Migrating Tableau/Micro Strategy Reports through RLM process from lower environment to higher

Environment.

Environment: JIRA, Bitbuckets, Service-Now, Tableau Desktop 2019.3, Tableau Server, Oracle DB, Sybase DB, Platform, Autosys, AWP, Impala DB

Tata Consultancy Services (Dec 2011-Sept 2021)

Designation: Assistant Consultant

Project 3: GE Healthcare (Apr 2018-Sep 2021)

Role: Senior Tableau Developer

Responsibilities:

• Worked as senior Tableau Developer closely with DB and management teams to create IT and data visualization solutions.

• Developed Customer Satisfaction Dashboard which helped business to understand the customer satisfaction with the product and improve the product quality.

• Responsible for end-to-end testing of Tableau dashboards which are developed by team.

Key Achievement:

• Received best performance award from TCS for completing Tableau Migration Activity.

• Worked as a lead for Tableau Migration project and migrated around 150+ Tableau dashboards from PostgreSQL to Amazon Aurora DB.

Environment: Tableau 2019.3, Tableau Server, Greenplum database, Rally, PostgreSQL, AWS Aurora DB

Project 4: Energy Management and Inbound Freight

Client: Jaguar and Land Rover (December 2016-March 2018)

Role: Tableau Developer

Responsibilities:

• Engaged in the development, debugging, and troubleshooting of the application throughout its life cycle.

• Provided Support for Tableau dashboards in Production environment.

• Understood the business requirements through the high-level design

• Gathering information from clients and develop dashboards in Tableau

Environment: Tableau Desktop 10.3 and 2018.3, Google Big Query, Google Sheets

Project 5: Integration Project

Client: Best Buy (January 2012-Nov 2016)

Role: TIBCO Administrator

Responsibilities: Worked as a TIBCO Administrator

• Error handling and auditing done for all business processes.
