Project Details:

(1) [Arkansas South Program - CleaResult – \(Globant – 5 Months\)](#)

Language/Tools: Apex, Visual force, Customization, Configuration, Custom settings, Reports and Dashboards, Trigger

Team Size: 4

Description: The project is focusing on saving Electric Energy and helping customers to save more. It has two major processes i.e Instant Rebate and Claim Process, first one focusses on instant discount while buying electric products and other one applied later when the bill is claimed. It covers majorly all South American States.

Roles and Responsibilities:

- Involvement in enhancement/development and solving PROD issues.
- Involved in maintaining data model for this application.
- Involved in Customizing Standard Functionality through Apex and visualforce coding.
- Involved in Retrospective and daily scrum call.
- Deploying Objects, Fields, Validation Rule, Apex Classes, VFpages etc using Change sets.

(2) Sales Cloud (TCS – 1.4 years)

Language/Tools: Apex, Visualforce, Copado, Force.com, Reports and dashboards

Team Size: 3

Description: The project deals with enhancement of some features including various Sales Cloud Object fields. It also involves upgradation in existing techniques of integration with CDM Source System. It includes the data cleaning process to remove the unused fields, reports, dashboards, public groups etc, using filed trip, field dependency and VlookUp.

Roles and Responsibilities:

- Deploying Objects, Fields, Workflow Rules, apex classes, VF Pages using Copado.
- Working on Agile framework and Involved in daily scrum calls with Client.
- Creating and debugging Lightning component as per business requirement.

(3) TRD-Ticket Generator (Cognizant – 4 year)

Language/Tools: Configuration, Custom settings, Force.com, Relationships, Data Loader **Team Size:** 5

Description: It is a ticket booking application for Concerts/ Workshops/ Events held at various locations. The price calculation is dynamic, for example: if the availability is less than 10% of total tickets price, then the price will be increased by 10% for premier concerts. Each individual can see all the future and past tickets and can provide feedback about past events.

Roles and Responsibilities:

- Involved in creating data model objects and fields and overall Schema Design and development.
- Involved in development of Visualforce pages and controllers.
- Data Migration using Data Loader.
- Writing Test Classes.
- Data validation through APEX and validation Rules.

Education:

Course	Period	Institute	Percentage	University/Board
B.Tech(Information Technology)	2010-2014	JECRC, Jaipur	78.3	Rajasthan Technical University
Higher Secondary School	2009-2010	Kendriya Vidyalaya No.2	75	C.B.S.E.
Senior Secondary School	2007-2008	Kendriya Vidyalaya No.2	80.2	C.B.S.E.
