A highly motivated and detail-oriented software tester with 1+ years of experience in manual and automation testing. Seeking a challenging role in a reputable organization to utilize my technical skill and knowledge to deliver quality software products.

WORK EXPERIENCE

Programmer Analyst

Cognizant Technology Solutions

oct 2021 – Present

Coimbatore, TN

- Designed, executed, and maintained manual test cases to validate software functionality.
- Designing RTM and mapping the requirement to related test cases
- Developed and executed automated test scripts using Selenium WebDriver, Java, and TestNG.
- Collaborated with developers to resolve software issues and bugs.
- Verified bug fixes and tracked them to closure.
- Participated in weekly status meetings and provided updates on testing progress.
- Experience with ad hoc testing (w/o test cases)
- conducted 10+ test engineering assessments (audits) and provided recommended corrective actions and reputed compliance metrics to management.
- working as part of the Global Delivery Excellence team.
