Work Experience Summary

Total Work Ex. 6 YRS.

Current Organization : Tata Consultancy Services

Working as IT Analyst with TCS APAC.

Projects :

Global SFDC:

The project was to develop user's requirement on standard object as well on custom objects, creating visual force page for lookup search layout ,buttons or other page, creating LWC for buttons, migrate data from one Salesforce instance to another, natively supported feature of the force.com platform, connecting other legacy system with salesforce and establish bridge to send and receive data.

CPQ(APTTUS):

This project is about Configure ,Pricing and Quoting on force.com platform using Apttus(conga) manage package. Where client makes their deal with customer by creating quote ,configuring products, pricing and discount , approvals, invoice generation and order place. We have developed number of customized functionality on top of apttus cpq functionality to fulfil client's requirement and created a complex approval process automation and pricing engine by leveraging API call given by conga package.
