- GCP       ✴ ✴ ✴ ✴

## Experience

**Deloitte India** - *Consultant*

September 2020 - PRESENT,  Pune, India

Collaborated with the BI team to create dashboards and generate Insights for a large pharmaceutical client(**Pfizer Inc**).

- **P3 Vaccines**

❖ Created Tableau Dashboard for various leadership(Executive, Finance) and User's across the globe (North America, IDM, Global)  after gathering the requirements from Stakeholders.

❖  Completed an end to end  cost analysis involved for different Studies/Projects that helped to remove near about 500 odd studies and save revenue near about $1mn.

❖  Created advanced charts like Donut Charts,Pareto charts for Visualizations.

❖  Automated various reports using Tab commands for the Stakeholders.

❖  Single-handedly spearheaded the P3 Vaccines project starting from requirement gathering to development, testing of dashboards and documentation that generated millions of dollars in incremental revenue for the organization.

- **STARS**

❖  Created Tableau Dashboards which represented all the durations in a Gantt chart of various Program(s),Assays and Studies for various Scientific leadership teams.

❖ Created a single Dashboard that  represented all the details like cost involved, duration of a study, track record of clinical patients which was very helpful to the leadership team.

❖ Automated the STARS report's using Tab commands and Python.

❖Completed an end to end analysis for various Clinical Studies that are on-going, completed, cancelled .

**Sears Holding Corporation -** *Associate Engineer*

November 2017- June 2020,  Pune,India

Collaborated with the Online BI team to manage data and create dashboards and generate Insights from data for Stakeholders.

- **Offer Performance**

❖ Created offer performance dashboard, which shows how different types of offer are contributing to sales. This helped in creating new offers which increased profits in targeted departments and reduced overall loss.

- **Inventory Forecast**

❖ Report which helped remove unnecessary products from inventory via clearance sale. Also, It helped stores stock up necessary products which increased revenue by 5% in some divisions.

- **SYW Points**

❖ Report for Shop Your Way (SYW) points which were about to expire and helped create targeted offers for such customers.

- **Tableau migration**

❖ Migrated 750 reports from reporting tool DOMO to Tableau.
