WORK EXPERIENCE

Full Stack Engineer, Professional Fiserv

05/2021 - Present

Pune, India

Achievements/Tasks

- Designed and Developed scalable front end and back end web applications which communicates with 10+ different online banks which will further be consumed by mobile applications. Ensured performance, quality and responsiveness of applications. Proactively helped project in any impediments such as new server setup, writing over 200+ Automation test cases, Azure branch policies etc.
- Design and Developed a mock world for all features which helps reduce rejection rate of applications in Google play store and Apple app store.
- Design and developed a standalone website from scratch for Google Mandate account delete feature for all Financial Institutes.

Full Stack Engineer Cognizant

01/2018 - 05/2021

Pune, India

Achievements/Tasks

- Developed & Designed front end website's architecture and user interactions on web pages using TDD [Angular], back end REST APIs using Micro-services. [.NET Core] using TDD, managed well-functioning databases and applications. [Oracle SQL Developer]. Followed Agile methodologies [Daily Scrum, Sprint Planning, Demo, Retrospection]. Intensively worked on various Proof of concepts, Angular version upgrade changes, complex grid features. Wrote over 300+ unit test cases on front end and back end to ensure 100% code coverage in Sonar Cube.

Intern

Persistent Systems

07/2015 - 09/2015

Pune, India

Achievements/Tasks

- Certified in Algorithms in Machine Learning and Big Data.

HONOR AWARDS

Star of the Month Awards for August 2021, October 2021, December 2021, March 2022, May 2022, November 2022, December 2022, April 2023, November 2023, December 2023

Fiserv Internal

Coding Sprint Champion of the Month, Champion of Day 1 & Champion of Day 2 for April 2022

Techgig, FISERV

Robotic Process Automation Excellence Program : KYC Process Idea Shortlisted (09/2021)
