- **Operating System:** Windows.
- **Databases:** SQLite, Oracle.
- **ETL:** IIB(IBM Integration Bus), Jitterbit, Websphere.
- **Frameworks and Services:** Spring, Springboot, Hibernate.
- **Others:** HTML, CSS, JSP, Bootstrap, Angular(Basics), REST API, Microservices, Maven, Postman.

EXPERIENCE

- **Developer at Cognizant Technology Solutions (July 2018 - Present)**
- **Programmer Analyst Trainee at Cognizant Technology Solutions (Dec 2017 - Jun 2018)**

PROJECTS DETAIL

1. Payment Notification API

Project Description: Have been a part of middleware development team, involved in managing and creating message flows using various nodes and computational business logic. Had implemented a payment notification service to notify the customer about their payment status.

Duration: 5 months

Team Size: 5

Role Played: Developer

Skills Used: Java, ESQL.

Tools Used: IIB, Websphere.

2. Financial Transactions API

Project Description: As part of the middleware development team, engaged in checking various financial transactions categorized as internal and international transactions and fetching the converted currency of the corresponding country, based on the country code from the input payload.

Duration: 5 months

Team Size: 5

Role Played: Developer

Skills Used: Java, ESQl.

Tools Used: IIB, Websphere.

3. Data Migration

Project Description: As part of the middleware development team, collaborated with team in migrating data of different vendors from old server to new.

Duration: 9 months

Team Size: 3

Role Played: Developer

Skills Used: Java, SQL

Tools Used: Jitterbit.

4. Critical Reporting

Project Description: This application logs all the incidents related to the fleets, their history and all the incident related details.

Duration: 6 months

Team Size: 4

Role: Developer

Skills Used: Java, Springboot, REST API.

Tools Used: Eclipse, Visual Studio Code, Postman.

5. Vehicle Maintenance

Project Description: Two types of maintaining process are there under this project:

- **Tire Pressure Maintenance**
It supports tire pressure monitoring systems for tractors and trailers with Omnitrac's mobile computing platforms to provide near real-time visibility of tire pressure data and warnings.
- **Engine Monitoring**
Engine Monitoring provides near real-time alerts for common engine fault codes to help you proactively diagnose and take action to reduce fleet maintenance and repair costs. This application lists the vehicles and their respective driver details.

Duration: Present

Team Size: 4

Skills Used: Java, Springboot, REST API.

Tools Used: Eclipse, Visual Studio Code, Postman.

RESPONSIBILITIES

- Gathering requirements from onsite team members.
- Analyzing the problem along with their solution.
- Attending scrum calls.
- Creating modules and components as per the requirements and coupling them into functional application.
- Worked on the **REST/web APIs** to create the services.
- Hitting the APIs in Postman and checking the responses.
- Writing optimized code.
- Unit testing in local environment using valid test data.
- Validating the functionalities developed in Local and DEV environments.
- Fixed bugs and provided support service for application.
- Used **JIRA** for defects tracking.

STRENGTHS

- Good oral, written and presentation skills.
- Quick learner with good grasping quality.
- Proactive and result-focused.
- Work as a team in an organized behavior.
- Good time management skill.

EXTRA CURRICULAR

- Had organized various cultural activities with team in College as well as in Office.
- Achieved a rank of 621 among 1533 participants in 101 Hack 43 organized by HACKERRANK. (Username: jitesh93).
- Hobbies: Listening music, Travelling.

PERSONAL DETAIL

- **Date of Birth:** 08th Dec, 1993
- **Nationality:** INDIAN
- **Languages Known:** English, Hindi, Bengali
- **LinkedIn Profile:** <https://www.linkedin.com/in/jiteshshaw/>
