

Harsha Sivaraju

Senior Software Developer

SUMMARY

Accomplished Senior Software Developer with 7+ years of experience leading projects by acting as architect, developer and programmer analyst. Proficient in supporting project deliverables and maintaining releases. Strong leader in guiding support teams and solving complex issues. Steadfast in planning and implementing effective development strategies based on industry best practices.

WORK EXPERIENCE

Senior Software Developer Aug 2016 - Feb 2024

- TA Digital (CREDERA)
📍 Hyderabad, India
- Developed databases, programs and processes for integration and implementation across enterprise.
 - Provided development solutions using knowledge of complex technology to solve problems and developed new projects.
 - Trained new developers and programmers on company standards for design and review.
 - Revised, modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality.
 - Documented technical workflows and knowledge to educate newly hired employees.

TECHNICAL SKILLS

- WCM : AEM 6.0/6.1/6.2/6.3/6.4
- Java Technologies : Microservices, Spring Boot, Servlets.
- Web Technologies : Sightly/HTL, HTML, CSS, jQuery, Bootstrap.
- IDE : Eclipse, CRXDE, IntelliJ.
- Databases : MySQL.
- Utility tools : GIT, Jira.
- Build Tools : Maven.

EDUCATION

Engineering Sep 2012 - Jun 2016

Gokaraju Rangaraju Institute of Engineering and Technology
📍 Hyderabad, India

MOST PROUD OF

- Physical Organization**
Creative Thinking, Effectiveness, Productivity
- Planning**
Analyzing Issues, Decision Making, Project Management, Strategic Planning
- Team Work**
Collaboration, Delegation, Goal Setting, Group Leadership

PROJECTS

Java Developer (Spring microservices) - (2019 - Feb 2024)

- Experience with JAVA, strong hands on experience with Spring Framework, contributed towards building microservices architecture-based applications using Spring Boot framework.
- Utilized technologies like Tanzu cloud foundry (TCF) for easier deployment management, leading to reduced downtime during updates.
- Worked on gathering real time information from the User's fitness device with the help of third party applications like Validic.
- Worked in integration of RabbitMq with Spring to consume real time data.
- Utilized Spring data JPA to perform database operations.
- Incorporated automated build processes using continuous integration tools such as Jenkins and Concourse CI/CD pipelines for streamlined code deployment and version control management.
- Reduced bugs by conducting thorough unit testing and collaborating with QA teams.
- Utilized Splunk to troubleshoot production issues. Created Splunk dashboards to monitor API Metrics and to capture unsuccessful API information. Created Splunk alerts to capture critical production issues.
- Led code reviews to identify potential issues, ensuring coding standards and optimal performance across all projects.
- Documented code clearly and consistently to facilitate easy understanding during maintenance or updates.
- Exposed to Agile and Scrum development model of working.

AEM Developer - (2016 - 2019)

- AEM page template/component design and development.
- Developed templates, components and Touch dialogs.
- Developed experience fragments for header, footer and for other components.
- Created Dashboard that displays all the pages information and has ability to filter based on page properties like published/not etc.
- Created Run Modes for different environments(dev, qa, publish etc..)
- Created workflow process that triggers whenever a new user fills a form and sends email to the user with form data.
- Involved in Requirement Gathering/Analysis and demoing to clients daily to show the progress of the project.
- Created a custom multi-field component to retrieve the multi-field values
