- Ability to work in a team as well as Individual.
- Can handle challenges by fulfilling the requirements in the given time period.

PROJECTS

○ Android Project:

FOOD RUNNER APP :

Organization : Internshala

Duration : 8 Weeks

Language : Kotlin

This project basically focuses on availing a platform for ordering and delivering the food from handpicked kitchen to customer.

○ Academic Project:

ANALYSIS OF WOMEN SAFETY IN INDIAN CITIES USING TWEETS :

This Research paper basically focuses on analysing the tweet and the sentiment behind the message is extracted. This extraction is done by using the sentimental analysis procedure.

Using Laplace and porter's theory, a method is developed in order to analyse the tweet data and remove redundant information from the data set.

WORKSHOPS

- JAVA
- Hackathon Competition
- Technical Seminar
- Certified in C Programming in College level competition.

LEADERSHIP
