Projects

Byju's Discovery School Super League Season 3

DSSL is India's Biggest National Level Quiz Contest. It is an aptitude based contest held in three rounds. Round 1 is a School Level round held from June till the year end. Round 2 is a State Level round where school toppers will be invited to participate. Round 3 is a National Level Round where state toppers represent their states on TV. This round is broadcast on Discovery Channel.

Technologies: ReactJS, Redux, Immutable, ES6, webpack, Material UI

Byju's English Learning App

It's a speech-driven app that will teach English along the fundamental language learning skills of Speaking, Listening & Reading while indexing for Grammar, Vocabulary & Pronunciation.

Technologies: ReactJS, Redux, Immutable, ES6, webpack

Razorthink AI

'Razorthink AI' is an AI Data Scientist that will consume the enterprise's large scale data and automatically create, design and deploy 'Expert AI' solutions to solve specific complex business problems. It uses data science to understand large scale data, make sense of it and create an army of Expert AIs for business solutions without the need for a high-end data science team or talent of complex algorithms.

Technologies: ReactJS, Redux, Immutable, ES6, webpack

Impactive

Impactiva has been a partner of choice for major brands and retailers who are eager to improve their Supply-Chain. It impart lean manufacturing principles to optimize factories' processes, provide on-site quality assurance and/or quality-control, and deliver significant improvements in efficiency, quality, flexibility and cost.

Technologies: ReactJS, Redux, Immutable, ES6, webpack
