## Professional Experience

### 1. Quincus India Pvt. Ltd.

July 2020 - Feb 2022

**Designation:** Software Engineer

**Product name:** Ground Floor

**Details:** This is one of the logistic companies. This product solves the supply chain problem. It takes the ownership from picking up to the delivering of the parcel to the end user. It keeps track of the parcel. It improves the better communication across the supply chain. It reduces the cost per delivery.

**Tools:** Ruby on Rails, PostgreSQL, Sidekiq, Redis, Kafka

### 2. Neblio Technologies Pvt. Ltd.

Dec 2019 – Mar 2020

**Designation:** Backend developer

**Product name:** CoinDCX

**Details:** This is one of the fintech companies i.e., Cryptocurrency Exchange company. It provides trading platform where users can buy bitcoins, ripple, ethereum etc and sell these. DcxLend, DcxMargin, DcxInsta, DcxPay etc. are the products of the company for users to do the trading.

**Tools:** Ruby on Rails, PostgreSQL, postman, sidekiq, redis

### 3. Bharathi Tech Services Ltd.

July 2019 – Oct 2019

**Designation:** Ruby on Rails developer

**Product name:** Mapprr

**Details:** This is the product delivery website/app. Customer will search the product and will get the list of product's stores if that product is available at his/her nearby stores. The product delivery time to the customer is within 60 minutes. A separate module is given to our store's clients so that they can track their sales, income, products.

**Tools:** Ruby on Rails, PostgreSQL, jQuery, postman, sidekiq, redis

### 4. ThreadSol Softwares Private Ltd.

Jan 2016 – July 2018

- I did 4 months internship, I made projects during this period are as follows:-

#### (1) Ecommerce Website

**Designation:** Software Engineer

**Details:** This project is shopping website in which a user can order a particular product. Login access is given to the admin and each user/shopkeepers respectively. Admin will upload the information of a product in the website and all the accesses such as read, create, update, delete are given to him. User can search a product and order that product. Shopkeepers can create/update their product's information.

**Tools:** Ruby on Rails, MySQL, jQuery, postman

#### (2) Employee Directory

**Designation:** Software Engineer

**Details:** This project stores the information of the employees working in a company. Employee can access the salary slip and could download it. An Employee could find the details of all employee's information such as name, skype-id, phone no. and designation name. Super admin could insert/update/delete/read the information of an employee.

**Tools:** Ruby on Rails, MySQL, jQuery, postman

- After completing the internship, the projects are as follows :-

#### (1) Reimbursement May 2016 – June 2016

**Designation:** Software Engineer

**Details:** This project is based on Company's internal reimbursement process for bills provided by the employee to finance team. The bill's image is uploaded by the mobile app. All the bills will be meticulously checked by the auditor, he can reject/approved the bills and approved bills will be forwarded to finance team to complete the reimburse process. Rejected/Approved bills are communicated by the sending email to the particular user who uploads that bill.

**Tools:** Ruby on Rails, MySQL, jQuery, postman

#### (2) IntelloCut July 2016 – July 2018

**Designation:** Software Engineer

**Details:** This software provides the optimization solution that measures, predicts and optimizes material utilization and productivity for garment industries. This software covers the cutting section of the garment factory. It generates the most suitable and optimized cutplan from millions of possible combinations. It estimates fabric requirements accurately. It gives maximum utilization of fabric. It minimizes the fabric wastage. It can save upto 10 % fabric cost.

**Tools:** Ruby on Rails, jQuery, PostgreSQL, postman, sidekiq, redis

**INTERESTS:** Trekking; Exploring new places.

**EXTRACURRICULAR ACTIVITY:** Winner of cricket tournament 2014 in BIT, Noida Campus.
