

SASHIKANTA MISHRA

**UIPATH CERTIFIED -
ADVANCED**
(873608154653689974)

**FINLAND LAB CERTIFIED -
DEEP LEARNING**

CONTACT DETAILS:

Telephone: +91-8431531582
Email: sashikantammishra@gmail.com

TOOLS USED:

- *UIPATH(RPA Tool)*
- *AZURE*
- *JENKINS*
- *UFT(Automation Tool)*
- *SAP-TAO(Automation tool)*
- *SAP Application(Version:7.3,7.5)*
- *MySQL*
- *Visual Basic(Custom Code Developement)*
- *Postman(APIs)*
- *HP ALM(SOLMAN)*
- *Perforce*
- *JIRA(Scrum)*
- *Splunk*
- *Kafka*

PROGRAMMING SKILLS:

- 1.*C#/Vb.net*
- 2.*Python*
- 3.*VB Scripting*
- 4.*MongoDB/MySQL*
- 5.*C*
- 6.*Data Structures and Algorithm*
- 7.*Splunk Processing Language*

RPA DEVOPS BSA/ DEEP LEARNING(PYTHON)(2014 -PRESENT)/ (EXP:~7 YEARS)

GyanSys(Oct 2020-Present)

BSA

Enabled Orchestration -Implemented Deep Learning- Setup BOT SSO -
AZURE service creation for Controlling Orchestrator - API -Web
Automation - JENKINS Integration

Adobe(AUG 2018 -Oct 2020)

RPA SPECIALIST(2018)

Created RPA ecosystem - JENKINS Integration -ERP(SAP) -MongoDB -
Splunk- C# - Slack(Input for Automation BOTS) - UIPath -PDF(Invoice)-
Winforms-JIRA(AGILE Setup))

Cognizant(MAR 2015- AUG 2018)

PROGRAMMER ANALYST(2015) - ASSOCIATE(2017)

UIPATH(Custom C#) -Deep Learning Implemented(Survey Analysis
Project)- SELENIUM(Web) - Salesforce -Web/API/PDF environments in
Agile- UFT(VB /.net)

BRG GROUP(JUL 2014- DEC 2014)

DATA ANALYST(2014)

Blueprism-Excel -Data Extraction-HRIS

ACHIEVEMENTS

Gyansys -

**1.Setup UIPATH cloud Infrastructure using Azure for Client
Citrix along with Bot setup and licensing.**

Adobe -

2. Lead RPA Automation for ADOBE from scratch.

**3.Developed Automation Ecosystem for DevOps-
implementation using JENKINS**

Cognizant -

**4.Migrated the whole SAP-TAO code into UIPATH because
of instability of SAP-TAO object identification(High
frequency)**

**5.Utilities Created in UIPATH to support desktop
application side in a Selenium project(only web based)**

**6.Awarded Pillar of the Month multiple times and even led
a project to completion in pursuit of onshore absence.**

AUTOMATIONS LANDSCAPES:

- 1.API Automation
- 2.WEB Automation
- 3.Application Automation (SAP,Salesforce)
- 4.Database Testing
- 5.Automated Game Engine(C#)

TOOLS USED:

- UIPATH(RPA Tool)
- UFT(Automation Tool)
- SAP-TAO(Automation tool)
- SAP Application(Version:7.3,7.5)
- MySQL
- Visual Basic(Custom Code Developement)
- Postman(APIs)
- HP ALM(SOLMAN)
- Perforce
- JIRA(Scrum)
- Splunk
- Kafka

PROGRAMMING SKILLS:

- 1.C#/Vb.net
- 2.C
- 3.VB Scripting
- 4.MongoDB/MySQL
- 5.Core Java
- 6.Data Structures and Algorithm
- 7.Splunk Processing Language

PROJECT EXPERIENCE

CITRIX (GYANSYS)-PRESENT

SENIOR PROCESS CONSULTANT (AUG 2018 TO PRESENT)

Project Overview:

Automate the Citrix App and merge the databases like MySQL and Access to produce powerful BI reports in tandem with CI/CD implementation using Jenkins and Azure

Responsibilities:

- Orchestrator Setup
- Hands on Pipeline creation for Azure using local ports from VMs.
- PDD creation and sign off implementation
- Designing insightful reporting using on PowerBI.
- Version controlling in VSTS
- Citrix Education Portal Automated
- Survey Analysis ML implemented

Other Responsibilities -

- Participated in hiring process
- Accountable for ROI and POC for multiple projects other than Citrix Client

ADOBE (AUGUST 2018-OCT 2020)

RPA SPECIALIST (AUG 2018 TO PRESENT)

Project Overview:

Test Saved in MongoDB servers(JSON Format) which is pushed into UIPath Orchestrator using Kafka(Microservices(C#)).The Queues' Order's values are extracted from SAP GUI(v7.3/v7.5) and Worldpay-WebPage using UIPath and customized logs are pushed into Splunk(BI reporting) and MongoDB using REST APIs.

Responsibilities:

- Flow creation and decision on scope of implementation
- Hands on Pipeline creation for Splunk using local ports from VMs.
- PDD creation and sign off implementation
- Hands on Kafka tuneeling using C# for consumer group.
- Designing insightful reporting using SPL on splunk.
- Version controlling in Perforce
- Agile scruming hands on using JIRA tool.
- Custom Codes designing in UIPath for various modules.

Other Responsibilities -

- "Automation Centre of Excellence" team member
- Responsible for code review and maintenance of scripts for 11+ projects

AUTOMATIONS LANDSCAPES:

- 1.API Automation
- 2.WEB Automation
- 3.Application Automation (SAP,Salesforce)
- 4.Database Testing
- 5.Automated Game Engine(C#)

TOOLS USED:

- UIPATH(RPA Tool)
- UFT(Automation Tool)
- SAP-TAO(Automation tool)
- SAP Application(Version:7.3,7.5)
- MySQL
- Visual Basic(Custom Code Developement)
- Postman(APIs)
- HP ALM(SOLMAN)
- Perforce
- JIRA(Scrum)
- Splunk
- Kafka

PROGRAMMING SKILLS:

- 1.C#/Vb.net
- 2.C
- 3.VB Scripting
- 4.MongoDB/MySQL
- 5.Core Java
- 6.Data Structures and Algorithm
- 7.Splunk Processing Language

COGNIZANT(RPA AI)

1.DESIGNATION - ASSOCIATE

PROJECT 3.0 (UNILEVER)(DEC' 16) - (AUG' 18)

Propaganda: UIPath Automation testing using Excel endpoints

- Expertized in using UIPATH Object Recorder to manage execute windows controls as a background process
- Usecases developed both in C#(Selenium) and UiPath
- Exposure to Uipath's Screen Scraping - on implementing using Microsoft /Google identifiers
- Experienced in problem solving for the issues that arises in daily UIPATH running and providing timely responses and solutions and preparing reports for defect statistics and tracking daily and weekly
- Extensive experience in using object cloning and key strokes to perform operation on web and mainframe applications
- Ongoing contribution to the automation Practices and Frameworks in order to drive a culture of continuous improvement in SAP automation

TECHNOLOGIES USED

- 1.C#/Visual Studio
- 2.SAP
- 2.Excel
- 3.Power-BI
- 4.Selenium(c#)
- 5.UIPath
- 6.JIRA

2.DESIGNATION - PROGRAMMER ANALYST

PROJECT 2.0 (NIKE)(MAR' 16) - (DEC' 16)--COGNIZANT--

Propaganda: Automation Testing for SalesForce using EXCEL inputs with RPA(UIPATH)

- QC standardization in Selenium(c#) .
- Custom Code Creation in C#
- Excel Automation .
- Manual execution (dry run) - SAP sign-off process.
- Prepare the individual scripts by automating the manual test cases using UIPATH.
- Custom validations in JSON Format.
- Development and making use of the custom components developed using VB.Net .
- Executing the developed scripts in Batch and analyse and fix the issue.

UIPATH CERTIFIED - ADVANCED
(873608154653689974)

TECHNOLOGIES USED

- 1.UIPATH
- 2.SalesForce
- 3.MySQL
- 4.Excel
- 5.HP ALM(Solution Manger)
- 6.GIT HUB

3.DESIGNATION - PROGRAMMER ANALYST

PROJECT 1.0 (COMMSCOPE)(MAR' 15) - (MAR' 16)

Propaganda: TECHO-FUNCTIONAL Testing for SAP SD/MM.FICO using EXCEL inputs with RPA(UIPATH)/SDET(QTP)

- Uipath Automation using Excel Workssheets .
- Code Created in UFT /QTP Tool.
- Code Migration from UFT to UIPath .
- Manual execution (dry run) - SalesForce Flow PDD creation .
- Prepare the individual scripts by automating the manual test cases using UIPATH.
- Understanding the basic flow of the scenarios chosen for automation from SME and also helping Team member to understand them.
- Enhancing of the PFAs to meet the required validations as per the test cases.
- Development of custom code for UIpath in VB.Net.
- Weekly Execution and Maintenance.

TECHNOLOGIES USED

- 1.UIPATH
- 2.QTP/UFT
- 3.SAP
- 3.Excel
- 5.HP ALM(Solution Manger)
- 6.GIT HUB

BRG STEEL(RPA)

DESIGNATION - DATA ANALYST

PROJECT 3.0 (JULY' 14) - (DEC' 14)

Leveraged Blueprism RPA tool for logging man-power utilisation using HRIS

TECHNOLOGIES USED

- 1.BLUEPRISM
- 2.Excel
- 3.HRIS
- 4.VBS

Hobbies & Interests

- Sketching Cartoons
- Skateboarding
- Travelling
- Game Development
