PROFESSIONAL SUMMARY

Datacenter Virtualization Specialist
6+ years of industry experience in managing datacenter virtualized infrastructure layer with high available and redundant design. Datacenter infra support on Compute virtualization stack. Expanded my scope onto enterprise-level infra architecture support for domestic and global customers.
VMware Consultant & security analyst with a wide range of VMware product support to global customers. Primarily onto ESXi / Vcenter upgrades, patch security compliance based on VMware best Advisories.

CORE TECHNOLOGY SUPPORT

- VMware Specialist - Esxi | Vcenter | VRops | VSphere Replication | VSAN.
- MS Windows Administration - SCVMM 2012 & 2016 | Hyper-V 2012 & 2016 | Windows servers & Admin Center.
- Hardware Support - HPE Proliant & Synergy 12000 Frames | Dell Poweredge Servers | Dell EMC OME for Hardware Firmware Compliance Management | Lenovo XClarity Controller & Administrator.
- Linux intermediate Support - Centos | RHEL
- HCI Product - HPE Simplivity node inter-datacenter replication & Nutanix on Dell EMC servers support.

EXPERIENCE

10/2021 - Current
FIS Global | Chennai
VMware Security Analyst

- Serve as a tech spec in project planning and collaborate with the project manager to develop technical and architectural design strategies.
- Develop strong relationships b/w customers and cultivate solid trust in infrastructural architecture change design.
- Managing the central patching program for Esxi coordinating with the different support teams to onboard the ESXi into the central patching scope.
- Providing end-to-end planning to BAU team on Esxi patching & Hardware firmware upgrade plan based on recommended version from the support vendors.
- Creating process documents and SOP / standardization of Esxi patching across the global enterprise infra, in-result to reduce the overall vulnerability reported.
- Spying on latest vulnerability reported in Vsphere infrastructure and act immediately based on the CVE range and CI running with high priority applications.
- Governance in Vsphere infrastructure and maintaining security profile to avoid thread vulnerability.
- Managing Esxi host running in Vsphere environment with different market products i:e HPE Proliant / Synergy / Simplivity , CISCO HyperFLex , Dell PowerEdge / OME etc..

12/2020 - 10/2021
Tata Consultancy Services | Chennai
Information Technology Specialist

- Global Datacenter virtualization support. Providing End to End infrastructure design/planning/implementation and migration service.
- Managing different VMware / HPE products to provide solutions and to meet the daily BAU. Participating in product vendor calls / leads tech-consultant meet on behalf of TCS for continuous datacenter infrastructure service.
- A vast amount of experience in project transition planning / existing infrastructure expansion/operations process documents preparation and creating SOW to support team and end users. Adhering to ITIL compliance and also to on-demand supporting strategy.

09/2018 - 11/2020
Infosys Ltd | Mysore
Senior System Engineer

- on-premise data center operations management, infrastructure as service support to global/domestic customers.
- Providing solutions for Tier 2 / Tier 3 data center design and migration. Virtualized infrastructure layer design - ESXI / KVM & Hyper-v deployment and maintenance plan. HPE Synergy 12000 frame/ Simplivity installation strategy - expand the system / Increasing available resource and merge into existing running infrastructure.

CERTIFICATIONS

- Microsoft Certified Solution Associate: Windows Server 2012 (MCSA)
- ITIL V4 Foundation

HOBBIES

- Swimming
- Roller Skating
- Reading new technology blogs

03/2016 - 09/2018
NTTDATA, Tamil | Chennai
System Analyst

- Enhanced remote support for managing region- specific data center virtualization
- Design/deployment and management of entire compute model structure
- Compute model that includes procurement dealing, product comparison, analyzing features, cost- effective.

EDUCATION

Apr2015
Anna University - Dr.Sivanthi Aditanar College Of Engineering | Tiruchendur
Bachelor of Engineering
