IT Skills –

Language: C, C++, Core Java, HTML, CSS, JavaScript
Operating System: Windows 10 / 7
Web Technologies: HTML, XML, Web Services
Database Languages: MySQL, SOQL

Academic Projects –

- **Second Year : News RSS Reader :**
  News RSS (Really Simple Syndication) reader, also called a feed reader, is a browser add-on program designed to gather and display News according to user-definable channels/parameters. An RSS reader can reduce the time and effort needed to check online publications for updates. It creates, in effect, a personalized news subscription for the Internet user.
- **Third Year : Traditional Event Planner :**
  The Project was developed to override the problems prevailing in the practicing manual system. The software is supported to eliminate and in some cases reduce the hardships faced by this existing system. Moreover this system is designed for the particular need of the Indian Families to carry out operations in a smooth and effective manner.
  Project is developed on Salesforce Platform leveraging Salesforce Customer
  Communities. Where, Customer can easily fill in the requirements and rest its software

will be doing its job.
- Gets Quotation for event booked.
- Online payments for booked events.
- See online processing and status on Events.

Field of Interest –

- Cloud Computing (Salesforce)
- Salesforce Lightning
- Salesforce Development
- Mobile Application development for Android, iOS.

Achievements/Extra-curricular activities –

- Learned Salesforce Cloud from Trailheads.
- **Certified Salesforce Administrator (Dec 2020).**
