- Technically skilled in App Quality Fixes which include Crash Fixes, Fixed Unit tests in classes which are failed.
- Technically skilled in working the issues which are there in JIRA board, and worked on GAP cash and Super cash.
- We have four brands and will work on those four brands on development changes, the four brands are GAP, OLD NAVY, BANANA REPUBLIC, ATHLETA.

PROFESSIONAL EXPERIENCE

- **Worked as Associative Engineer from Ingrain Systems PVT LTD Hyderabad June 2018 to April 2021.**
- **Worked as Software Engineer from GAP IT Services India PVT LTD Hyderabad from May 2021 to Jan 2023.**

STRENGTHS

- Passion towards achieving success
- Zeal to learn new things.
- Effective planning and organizational skills.
- Cooperate while working in a team.

HOBBIES

- Listening Music, Browsing on new Interesting Stories.

SOFTWARE PROFICIENCY

Platforms	Windows XP, Mac OS.
Languages	C, Swift, C++, Flutter
IDE	Xcode, Android Studio, Visual Studio

PROJECT DETAILS

PROJECT 1

Title: Lawn Watering Advisor

DESCRIPTION:

“Lawn Watering Advisor” is a Flutter Application which we can run in both Android and IOS, which evaluates the users garden through the photo taken by the user and will give the results accordingly, like the amount of time to water the garden and which part of the garden to focus on.

Technology: Flutter in Visual Studio

RESPONSIBILITIES:

- Design and Development.
- Followed the MVC Architecture.
- Uni tested the code.

PROJECT 2

Title: Key Management

DESCRIPTION:

“Key Management” is a Flutter Application which we can run in both Android and IOS, is used for Admins to manage, assign and tracking the office devices and get the status of assigned phones (Android and iPhone), Android, Desk Keys. By using this app Admin can easily track the employees who are using office devices. Admin can search data by Emp Id, name or device name.

Technology: Flutter in Visual Studio

RESPONSIBILITIES:

- Design and Development.
- Followed the MVC Architecture.
- Uni tested the code.

PROJECT 3

Title: My Space

DESCRIPTION:

“My Space” is an application to develop the login and logout details of the employees, Employee can login to my space app and they can scan the QR code displayed at the entry and exit of the office Premises. When employee scan the QR code, application can capture the time of scan and employee GPSlocation and it will update the in time and out time of employee and the same will be reflected in the timesheet. The captured log in and logout time will be stored in Myspace timesheets database. It can be viewed on myspace UI as well as can be downloaded to excel via.

Technology: Flutter in Visual Studio

RESPONSIBILITIES:

- Design and Development.
- Followed the MVC Architecture.
- Uni tested the code.

PROJECT 4

Title: BrongaNative Android

DESCRIPTION:

“BrongaNative Android” is an application which is having four clients and will work on those four brands on development changes, the four brands are GAP, OLD NAVY, BANANA REPUBLIC, ATHLETA. We worked in Android, Design, unit test cases, SonarQube issues, Crash issues in New Relic, fixed crashes and bugs which made the apps work better and more reliable and also made easy for developers, technically skilled in App Quality Fixes which include Crash Fixes, Fixed Unit tests in classes which are failed and technically skilled in working the issues which are there in JIRA board, and worked on GAP cash and Super cash.

Technology: Kotlin in Android Studio

RESPONSIBILITIES:

- Design and Development.
- Followed by MVVM Architecture.
- Uni tested the code.
