## WORK EXPERIENCE

### Senior Software Engineer Western Digital

12/2018 - Present

Bangalore

#### Achievements/Tasks

- Developed end to end automation Framework (STAR & TLM) that helps end user to launch different test case related to firmware, design and platform on hardware's (storage devices).
- Consulted regularly with internal customers on application development project status, new project proposals and software-related technical issues.
- Technologies used were C#, Angular 8, SQL Server, Python.

### Consultant Deloitte (Offices of US)

05/2017 - 12/2018

Bangalore

#### Achievements/Tasks

- Provided outstanding service to clients to maintain and extend relationship for future business opportunities.
- Developed comprehensive business cases to analyze costs, rebates, agreements, invoices. Developed Vendor Agreement Project for Gordon Food Services.
- The Vendor Purchase/Sales Rebates provides various functionality to business user like adding rebates for specific vendors, viewing and downloading invoices, importing various sales record in system, calculation and accruing various sales and purchase data to calculate the missing transactions of the distribution unit or invoicing of transactions towards sales and purchase.
- The project is being developed using agile methodology so I am responsible for all the Estimation process, sprint planning and development of modules in spring boot and angular 4.

### System Engineer Tata Consultancy Services

10/2014 - 04/2017

Gurgaon

#### Achievements/Tasks

- Worked closely with customers, internal staff and other stakeholders to determine planning, implementation and integration of Airtel Postpaid System.
- Project involves development of Postpaid Payment System which can accept payment information from all the sources and process refunds.
- Developed all the modules including UI. Project was based Java/J2EE, JSP, SQL and web services.
- Developed Web Portal for Mckinsey & Company.
- Mckinsey Web portal aims to be the ultimate platform for overall functioning of the company. In better way, it is a place where all the independent applications come and communicate.
