## **PROJECTS**

### **Payment Application**

March 2023 - present

As a Software Developer with a focus on team leadership and resource hiring, I played a pivotal role in the Data Team, collaborating closely with Interruptions and Internal Tools. My responsibilities included analyzing and manipulating data across various application domains at Venmo. This strategic effort ensured the health of our platforms, facilitated innovation, and supported growth across the organization. Additionally, I empowered our product teams to execute rapid Time to Delivery (TTD) through effective data utilization.
