Current

## 2017-01 - Senior Associate Platform L1

Publicis Sapient, Bangalore, Karnataka

- Designed and developed a layered architecture for CRUD operations that consists of Frameworks and Object Services. The solution performed FLS checks and enabled developers to build dynamic SOQLs and DMLs.
- Orchestrated large transactions in a much efficient way considering the Salesforce governor limits. Leveraged Platform Events to send out the notifications of the transaction.
- Designed and developed a configurable custom data validation engine that maintained the data integrity.
- Involved in developing custom components and browsers in Lightning Aura.
- Built a Hybris Accelerator using Salesforce External Data Source.
- Mentored junior folks to achieve excellence in their day to day work.

### Associate Technology L2 2015-09 -

2016-12 Publicis Sapient, Bangalore, Karnataka

- Engaged in support and maintenance of back office application.
- Identified root causes of recurring problems to implement effective solutions.
- Automated various maintenance activities by scripting.

#### **Technical Associate** 2012-09 -

2015-09

Tata Consultancy Services, Pune, MAHARASHTRA

- Achieved success in resolving/preventing outages by making wise decisions on time.
- Streamlined the new processes and the outage resolutions.
- Analyzed the business impact whenever there was an outage at the upstream end and notified end users.
- Accelerated more efficient handling of customer queries by creating quick scripts/workarounds.
