WORK EXPERIENCE

Application Development Analyst- Software Developer Accenture

2019 - Present

Bangalore

Achievements/Tasks

- Working for Cisco (Client) on Salesforce Lightning in Sales Cloud.
- Upskilled myself to Salesforce development quickly by directly working on Apex Class/Triggers/Aura and with my own interest, while doing QA by spending extra hours. When upskilling to development played both QA & Dev roles & delivered successfully.
- Responsibilities are to Analyze, give solutions and building the functionality following coding standards, best practices and a defect free application utilizing QA competency from previous project
- Made sure to use generic components to re-utilize the code in multiple functionality.
- Have a keen eye for debugging issues and fixing the problems found in any application in an effective manner & also aware of Agile and Scrum process.
- Taken initiatives to mentor juniors in relation to salesforce development & Testing.
- Been appreciated by clients for giving my best and articulating challenges with best possible solutions.
- Experienced in using Copado tool, change set tool and Work bench in order to complete deployment by moving code to higher environments (CI/CD). Furthermore, worked on tools like Rally, JIRA, Git Hub, Visual Studio, Postman, Toad.
- Used different data tools like Apex Data Loader, Import Wizard etc for data loading and manipulation to correct the data.

Quality Assurance - Salesforce Testing Accenture

09/2017 - 2019

Bangalore

Achievements/Tasks

- I have worked as Quality Analyst on Salesforce Services and Sales Cloud in Cisco (Client) . Worked on Functional, Performance, Data Lake (HRMS), Regression, Integration Testing. Successful Releases with zero Defects.
- I'm also Certified in Selenium Professional and have also worked in Automation Testing to reduce the time of manual testing.
- Been awarded for maintaining very good rapport with client, being very flexible and interacting with business on daily basis to explain the business flows to both PST & IST hours.
- Well versed at analyzing & identifying gaps in functional/business requirements.
- Have demonstrated expertise in my project as well as other teams in handling major escalations, have extended in providing help across tracks and demo to client have been appreciated with the level details provided while explaining.
