### Career Objective:

To work with an organization in challenging and creative environment with my full commitment and thereby contribute to the growth of the organization as well to improve my personal skills

### Employment History:

Aug 2019 – Nov 2020: Webcetera Software Solutions Pvt. Ltd.

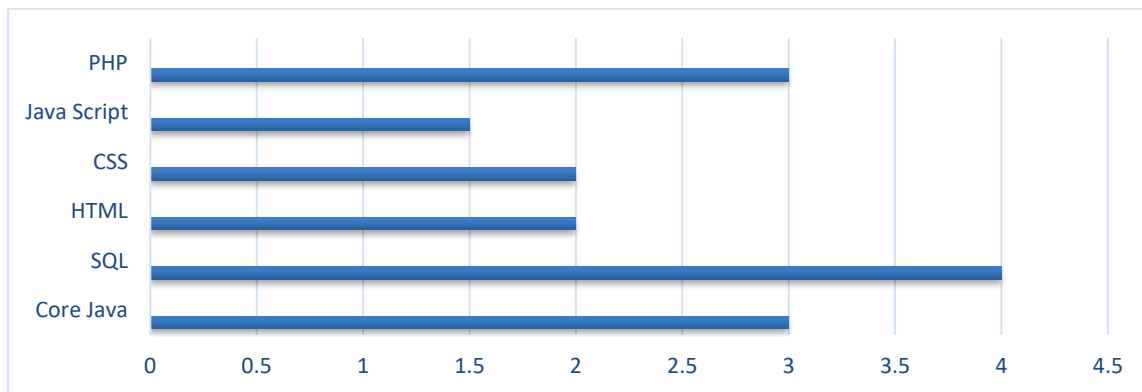

#### *Software Engineer - Trainee*

- Development of high-quality database solutions.
- Brings the existing customer data from the previous AMS into our AMS.
- **Data Analysis:** Check for details in the source from where data can be brought in. It is the initial phase and an important one since the records will be fetched based on this.
- **Coding:** Build and populate the Intermediate Conversion tables and get values from the source. Documents from data analysis and mapping help fetch the required data
- **Data Review:** Data is checked for duplicates and invalid data is validated to get correct data. Data is sent for review in scenarios where validation is not possible.
- **Tools Used:** SQL Server Management Studio, VS Code, Jira, MS Excel, Open Office etc.

### Academic Background:

Course	Institute	Board/ University	Year of passing	Percentage
B. Tech (Electronics and communications)	Srinivasa Institute Of Technology and Science	Jawaharlal Nehru Technological University Anantapur	2019	65.5%
