## Experience

### Infosys | System Engineer | Nagpur, Maharashtra, India | 15th July-2019 - Current

- Managed and maintained Azure cloud environments, including virtual machines, storage accounts, and networking configurations. Implemented and monitored Azure resource governance and security best practices to ensure data confidentiality, integrity, and availability.
- Designed and implemented Azure virtual networks, subnets, and network security groups to secure network traffic. Provisioned and managed Azure IaaS and PaaS services, including Azure App Services, Azure SQL Database, and Azure Functions. Implemented Azure Active Directory for user management, role-based access control (RBAC), and Azure AD Connect for directory synchronization.
- Utilized Azure Monitor and Log Analytics to monitor and troubleshoot system and application performance. Deployed and managed Azure Virtual Machines, including availability sets, virtual machine scale sets, and high availability configurations. Implemented backup and disaster recovery strategies using Azure Backup and Azure Site Recovery.
- Implemented Azure DevOps for continuous integration and continuous deployment (CI/CD) pipelines. Collaborated with cross-functional teams to design and implement scalable and cost-effective cloud solutions. Provided technical guidance and support to development teams for deploying and managing applications in Azure.
- Worked closely with security teams to ensure compliance with industry standards and regulatory requirements. Utilized PowerShell and Azure CLI for scripting and automation tasks.
- Participated in the evaluation and adoption of new Azure features and services to optimize cloud infrastructure and application performance.
- Also have Proven experience in a fast-paced, enterprise product support environment. Resolved customer service issues and skillfully managed complex customer service problems, managed customers' expectations and experience in a way that resulted in high customer satisfaction with 24-hour SLA maintained. Reviewed and acknowledged Salesforce support cases for technical and troubleshooting queries via email and chat assistance.

### Global Education Ltd. | Marketing Intern | Nagpur, Maharashtra, India | Apr 2017 - Jul 2019
