Full stack developer with 7+ years of experience in designing, developing and integrating front-end and back-end applications. Currently, I am looking for a position that will allow me to leverage my expertise and contribute to the growth of organization.

WORK EXPERIENCE

Bentley Systems, Pune

Software Engineer II

Apr 2021 – Aug 2023

Software Engineer I

Oct 2018 – Apr 2021

Associate Software Engineer

Sep 2016 – Oct 2018

iTwin Synchronizer

- Worked with the team to design and develop a web application which enables the users to sync design application files with an iTwin in the cloud
- Created docker images for the design applications to run it in the Azure cloud
- Added the wrapper code to manage the design application execution in the docker
- Added common code for the bridges to download files using various repositories like Azure Blob Storage, ProjectWise etc
- Worked with users (from companies like Hatch, WSP) to solve the production issues

ProjectWise Share

- Worked on web application which is an instantly available, easy to configure File Sharing Service that's associated with a CONNECT Project
- It provides CONNECT Edition applications, Cloud Services and Mobile applications the ability to save or consume files from a common cloud repository and connected users an easy, secure way to share files with Team Members
- Added selenium tests
- Fixed some major bugs in the desktop sync application

Repository Federation Service

- Microservice application
- It is used to store the information about different repositories like ProjectWise Share, Azure Blob Storage, ProjectWise etc
- Successfully migrated the stateful service data to the Azure Cosmos DB using APIs
