Career Objective

A versatile technocrat with **6+ years** of experience in **JAVA/J2EE/Spring Boot/Microservices/AWS/React/Kafka** technologies seeking an opportunity to work in a dynamic environment and utilize best of my skills and ability towards the growth of the organization and continue my rigorous efforts towards my professional and personal growth.

Work Experience

- **6+ years of experience as a software developer.**

Organization	Role	Tenure	Work Location
Brillio	Senior Software Development Engineer	August 2021 – Till Date	Bangalore
Hughes Systique Corporation Limited	Engineer	November 2020 to July 2021	Gurgaon
Mphasis	Software Engineer	April 2018 to November 2020	Bangalore

Key Skills

- **Programming Languages:** Java, J2EE, JavaScript
- **Worked on MicroServices, Restful WebServices, Spring Cloud, JPA, Hibernate, Spring Boot, Servlet, JSP, Reactive programming.**
- **Platforms:** Linux, Windows.
- **Tools:** Eclipse, Maven, Git, GitLab, SVN, Putty, VS Code, Oracle Weblogic Servers, TIBCO EMS servers, IBM Sterling WMS.
- **Web Development:** React, HTML, JavaScript, XML
- **Database:** Oracle database, MySQL, H2 database, PostgreSQL, Couchbase, Cassandra, Zookeeper, Elastic Search, Kibana, Redis Cache, R2DBC
- **CI/CD Tools:-** Jenkins, Docker
- **JMS Technology :-** JMS Queues, kafka
- Familiar with Atlassian Suite (JIRA, Confluence, BitBucket)
- Have good understanding of **Algorithms and Data Structures.**
- Working in **Agile** Team and have good understanding of **Agile methodology.**

Current Project

- Project Name- **POS**
- Client – **Verizon**
- Domain- **5G - Telecom**
- Duration- **July 2023– till Now**
- Responsibility – **Working as a Java Full stack Developer.**
- Technology used – Java, Microservices, Restful Webservices, Cassandra, Kibana, Elastic DB, React, Reactive Programming, R2DBC,Kafka, Junit, Mockito, Kafka
- **Project description:** POS Order management is Verizon application for placing mobile order via different channels.

Previous Project -1

- Project Name- **Magic**
- Client – **Verizon**
- Domain- **5G - Telecom**
- Duration- **August 2022– till Now**
- Responsibility – **Working as a Java Full stack Developer.**
- Technology used – Java, Microservices, Restful Webservices, PostgreSQL, Kibana, Elastic DB, Reactive Programming, R2DBC, Junit, Mockito, React JS, AWS
- **Project description:** Magic is a Dashboard tool to help higher management to get centralized view for productivity and revenue related data.

Previous Project -2

- Project Name- **INAM**
- Client – **Verizon**
- Domain- **5G - Telecom**

- Duration- **August 2021– August 2022**
- Responsibility – **Working as a Java Full stack Developer.**
- Technology used – Java, Microservices, Restful Webservices, PostgreSQL, Kibana, Elastic DB, React
- **Project description:** The Purpose of Tool is to Centralize internet numbers across Verizon into a single System to provide standardized number block utilization and management, reporting capabilities and functions to successfully manage the VZ inventory of internet numbers. (IPv4,IPv6 & ASN)

Previous Project -3 (Hughes Systique Corporation Limited)

- Project Name- **Lok8**
- Client – **Carnival Cruise**
- Domain- **Telecom communication & IOT**
- Duration- **November 2020 – August 2021**
- Responsibility – **Working as a Java Full stack Developer.**
- Technology used – Java, Microservices, docker, zookeeper, Couchbase, Websocket , kafka, Event Streaming , Mockito, Junit, React
- Description – Sensors and reader based project to get the exact location of Guests and crew members onboarded on Cruise ships to help in evacuation process in case of any fire or other emergency case on ship.

Previous Project -4 (Mphasis Lmt)

- Project Name- **Critical inventory Logistics**
- Client – **Fedex USA**
- Domain- **Supply chain management**
- Duration- **April 2018- November 2020**

- Responsibility- Developing order management system application, resolving production issue, managing warehouse management tool – IBM Sterling, working in agile methodology, Maintaining CI/CD Pipeline jobs, communicating with clients for requirement analysis and status update.
- Technology used- Java, MicroServices, Restful WebServices, Servlet, JSP, Struts, EJB, IBM- Sterling, TIBCO-EMS, JMS queues, Jenkins, Docker, Oracle Weblogic Servers, API gateway.
- Working in Agile and have good understanding of agile methodology.
- Have good business understanding of Supply chain management, Order management, Warehouse management.

Academic Qualification

- **MCA** from Allahabad University with 68.5% in 2017.
- **B.Sc.** (Mathematics& Statistics) from Allahabad University with 60.5% in 2013.
- 10+2 from WBCSE (West Bengal) with 71.4% in 2009.
- 10th from WBBSE (West Bengal) with 74.62% in 2007.

Training/ Internship

- Training in java, J2EE, Hibernate & Spring from Jspiders Bengaluru.
- Works as Software Engineer trainee at TechCompiler Data Systems, Noida for 2 months.
- Internship in mobile App Development from Xperia technologies, New Delhi.
- Training on ASP.NET from Global Talent Track.

Achievements

- **AWS Certified Cloud Practitioner**
