Keshav Miglani

- Highly experienced, passionate, and goal-oriented software developer with **5+ years** of experience. Proficient in Microsoft **SQL Server, Oracle SQL and PL/SQL**.
- Prepared to offer the experience of working across **multiple geographies** including **Kuwait**, South India, and North India, and across multiple industries including **General Insurance, Banking & Health Insurance** in the role of the individual contributor as well as a team player.
- Well versed in UI development and business requirement documentation capturing process and operational details.

Education

Sep 2010-Dec 2014	**Bachelor of Technology: Computer science & Engineering**
	Maharishi Markandeshwar University - Ambala, Haryana, India

Work History

Sr. Software Engineer   Jan 2020-Present
Monocept Consulting Pvt Ltd, Gurugram, Haryana, India

- Involved in design and development of strong back-end programming using **PL/SQL**, SQL, MS SQL, HTML, **stored procedures, functions, cursors, constraints, triggers, indexes** - B-tree index, bitmap index, views, inline views, materialized views, database links, export/import utilities.
- Developed stored procedures and other database objects in **SQL Server 2014**.
- Developed test strategies, test cases, and performed Unit Testing to identify and resolve integration, functional and usability issues before deployment.
- Optimized the Oracle PL/SQL queries by Performance Tuning.
- Create reusable **DDL, DML** SQL queries that can be used for different input data to validate against the user interface.

IT Programmer   Jul 2019-Nov 2019
National Takaful Insurance Company, Safat, Kuwait City, Kuwait

- Involved in the design and development of **Premia Insurance Software** using ASP.NET, web forms containing C# code for business, and data access logic.
- Implemented web config file to connect and access data from SQL Server.
- Used ADO.NET and data objects such as **data adapter, data reader, dataset, data table** for consistent access to SQL data sources.
- Created logical and physical Database Design, data structures, Data Modeling, Schema Design.

Sr. Software Engineer   Dec 2018-May 2019
Linktag Global Service Pvt Ltd, Pune, Maharashtra, India

- Experience with **data flow diagrams, data dictionary, data normalization** techniques, and entity relation modelling and design techniques.
- Effectively used table functions, indexes, table partitioning, collections, analytical functions, materialized views, query rewrite and transportable table spaces.
