## PROJECTS

---

### IDFC Bank

The main objective of this project is to create a loan application. The loan initiation is currently done through SO app. After loan creation, the documents information is captured, then customer details will be captured. After successful of these details, the bank details is captured. During these informations various integration runs.

### WESTERN AUSTRALIAN PARK FOUNDATION (WAPF)

In this project I have developed all the test cases and their respective test classes. It consists of Apex, Triggers. Communicate with project managers, clients and other developers to design cohesive project strategies and throughout all phases of development, testing and deployment.

## LATAM SALESFORCE

In this project, I have worked on Bit2Win. In this use the CPQ(Configure,Price,Quote).Also use the concept of FSL(Field Service Lightning).IN FSLs, app users can update work orders, track parts, gather customer signatures, and connect with dispatchers from their mobile devices. Some handson of Sales process of salesforce.
