  B.E – Computer Science and Engineering - 76.67%

PROJECT DETAILS

#1. Project Name: PayPal - ALTUS

Client	: PayPal
Role	: Senior Developer
Organization	: HCL Technologies,
Tools	: Java, J2EE, Spring MVC, Hibernate, Angular 7

Description:

Altus, an Application Lifecycle Management (ALM) system built on top of PayPal's Platform as a Service (PaaS), provides a seamless experience in creating, managing and deploying your application to Production.

Role / Responsibilities:
1. To adding new future and maintain the CI (Continues integration) Module and ECD Pipeline Module.

#2. Project Name: Affinion - Moma

Client	: Affinion
Role	: Senior Developer
Organization	: Virtusa Software Services Pvt Ltd,
Tools	: Java, J2EE, Spring MVC, Hibernate, Angular 4

Description:

Moma provide E-commerce facility to buy products through reward points of credit card or debit card.

Role / Responsibilities:
1. To Develop and Maintain Product Dashboard and Product CatLog Module.

#3. Project Name: Workbench (Deal-Pipeline)

Client	: Standard Chartered Bank
Role	: Developer
Organization	: Virtusa Software Services Pvt Ltd,
Tools	: Java, J2EE, Spring MVC, Hibernate, Ember.js

Description:

Deal Pipeline relates to potential new deals the Wholesale Bank is discussing with its Clients. Deal Pipeline project captures all the deals that are in the pipeline and this data will be used in the reporting module (for forecasting, funding and other reports).

A deal can have different attributes like Client related attributes, Product, Sub-Product, Tenor, and Region (Deal Region or Booking Region) that are measured against different metrics like Revenue, Net Interest Income, Deal Size, Hold Amount etc.

Role / Responsibilities:
1. To Develop and Maintain the Client Details Module (Collect all information about the client and maintain) and Product Details Module (Maintain Product information).

#4. Project Name: EPortal

        Client   : Apptium Technologies Pvt Ltd
        Role   : Analyst Software Developer
        Organization   : Apptium Technologies Pvt Ltd
        Tools   : Java, Spring MVC, Servlet, JavaScript, AJAX, Html, Angular.js, JQuery, SQLite

Description:

        Apptiums' solutions, built upon our EPortal technology, provide unique, powerful and intuitive ways to organize view and interact with multiple Rich-Internet Business Applications. Users can create custom views of multiple applications that can be dynamically and intuitively added, removed, reorganized and managed by one of multiple user or selectable layout managers.

Role / Responsibilities:

        1. To Develop and Maintain Design Palate Module (Allow user to design their own web page using drag and drop the component) and User Module.
