### PROFESSIONAL EXPERIENCE

#### Bluepineapple, Cloud Analyst

June 2021 – present | Pune, India

##### Project # 1: Drive Marketplace

- Designed and implemented custom Salesforce solutions using Apex, Triggers, Lightning Web Components, Flows, and the Salesforce platform to meet client requirements.
- Collaborated with cross-functional teams, including project managers, designers, and QA, to deliver solutions on time.
- Worked on LWC Component to dynamically filter car stock based on specifications such as brand, model, color, body type, odometer reading, price, year, state, and region using Apex and GraphQL.
- Integrated Salesforce with external systems using GraphQL to efficiently retrieve and synchronize data.
- Created and managed custom objects, fields, page layouts, validation rules, reports, and other Salesforce configuration components.
- Created Reports and Dashboards to meet business process.
- Participated in code reviews and performed unit testing to ensure high-quality code and system stability.

##### Project # 2: CRB (Custom Report Builder)

- Worked on the deployment of the Custom Report Builder Application for AppExchange.
- Created reusable components using Lightning Web Components (LWC).
- Implemented dynamic and efficient SOQL queries to retrieve records based on user input.
- Created classes and test classes using Apex.
- Built user interfaces using the Lightning Design System.
- Conducted testing and ensured quality assurance of solutions, including creating test plans, executing tests, and addressing defects.

#### Pushkal IT Solution, Web Development Intern

January 2020 – April 2020 | Indore, India

- Developed user interfaces with modern JavaScript frameworks, HTML5 and CSS3.
- Developed a project based on Java Programming Language using the MySQL database with Apache Tomcat Server.
- Supported complete lifecycle project implementation of various industry solutions
