### Career Objective:

Design and develop efficient and intuitive user interfaces for web applications while continuing to learn and expand my knowledge of emerging web technologies.

### Professional Summary:

- Working as a Software Engineer with 4+ years of experience in designing and developing the Single Page Web application using Angular 8 and CSS3, HTML5.
- Experience on Web Technologies using Angular 8, JavaScript, CSS3, HTML5.
- Possessing good Knowledge on integrating Pouchdb, Web services and RESTful API's from Server Side with front end.
- Good technical knowledge and excellent trouble shooting skills with the ability to understand the business requirements.
- Familiar with Agile software development methodology.
- A good team player with the ability to work in all sorts of environment.

### Technical Skills:

**Web Technologies:** HTML/HTML5, CSS2/CSS3, JavaScript, Typescript, jQuery, Bootstrap.

**JavaScript Frameworks** Angular 8 Version.

**Web Experience** Responsive Web Design

### Professional Experience:

Working as Angular 8 Developer at **Noor Technologies, Hyderabad** since February 2017 to till date.

### Project Profile:-

#### Experience at Noor Technologies:

Title : NOOORV2

**Role** : Developer

**Team Size** : 10

**Technologies Used:** Angular 4, 5, HTML5, CSS3, Material Design and Couchbase

**Duration** : February 2017 to May 2018

**Description:**

NooorV2 is an advanced e-Learning B2B application delivering and managing education, which gives teachers the ease of authoring interactive content. Content authors can share their content with others or publish it to stores.

Also, teachers can create and assign assessments and design learning paths for students, create mindmaps, live-track the assessments and view student reports.

Teachers and students can collaborate one to one over a call and share a book/lesson and have an immersive distant learning experience.

Students on the other hand can learn using the interactive content, share their learning with other students by enriching the content or by creating their own books.

With all these and many more integrated services, NooorV2 provides an engaging experience from K-12 to university students to explore.

**Responsibilities:**

- Worked closely with internal and remote teams to define business objectives, project scope, solution space and design/development approach.
- Within Angular 4,5 / Typescript code base ,developed Connect component to be implemented throughout the application, Incorporated filtering ,Sorting and column layout in design.
- Created structural HTML5 pages by using Angular Material elements ,HTML5 elements.
- Creating beautiful transitions , backgrounds ,transformations by using Bootstrap, Material design , Flex box with CSS3 standards.
- Involved in rendering Tabular details and numerous data by using Couchbase Queries.
- Regularly participated in scrum call that meets business and user goals through a positive user experience.
- Tested/Debugged to make enhancements and bug fixes.

**Title** : **Learning Path**

**Role** : Developer

**Team Size** : 10

**Technologies Used:** Angular 5,8 , CSS3, HTML5 and Material Design

**Duration** : June 2018 to till Date

**Description:**

Learning Path is a Simplified E-Learning Platform, Where Teachers Can Design their Own LearningPath for Students with a set of Milestones Needed to Complete a Lesson with ease. We Can assign Pages, Audio, Video, Images, from Downloaded Pdf's, Media, Books and Create, Edit View Each milestone and can share within a Group or other. Each Learning Path can be viewed in Different Themes From the menu to Bring eagerness among Students to Learn and Explore each Part of the Whole Lesson easily.

### **Responsibilities:**

- Consistent Interaction with UX and Business Analyst Teams.
- Converted PSD mock-ups into pure hand-written HTML5, CSS3, and Angular material pages for Desktop Tabs and Large Desktops devices.
- Created structural HTML5 pages by using Angular Material elements ,HTML5 elements.
- Created custom components and worked extensively on Directives/modules/Services and other angular components.
- Coordinating the workflow with the design and QA teams to fix UI bugs.

### **Education:**

Bachelor Degree In Computer Science from RMD Engineering College, Chennai 2012 - 2016
