Professional Summary

- ✓ **More than 11+ Years** of hands-on experience in the software industry with knowledge of complete software development lifecycle.
- ✓ A full-stack web development with great **back-end** (PHP / Laravel / NODE) experience and outstanding **front-end** (JavaScript) skills and **DevOps** (AWS / Linux / Docker / Kubernetes).
- ✓ Analyzed and developed **technical solutions** and **architectural approaches** to complex business problems from Proof of Concept to development, testing, production implementation and support.
- ✓ Ability to review an existing solution and determine next steps to improve efficiency, stability, and scalability.
- ✓ Good analytical, decision-making, and problem-solving skills with the ability to adapt to any situation and proven potential to grow self and others.
- ✓ An enthusiastic and goal-oriented team player possessing excellent communication and interpersonal skills with good work ethics.
- ✓ **Domain Experience** in Retail, Point of Sale, Customer Loyalty, E-commerce, Finance, Education, Media & Marketing

Project Management

- ✓ Effectively participated in projects from the kick-off meetings to client sign-off to ensure projects were completed on time, under budget, and exceeding expectations.
- ✓ Managed project scheduling, execution, and resources for multiple projects to aid in project completion.
- ✓ Has gained insight into both **Agile/Scrum & Waterfall-based** deliveries.
- ✓ Successfully led the **Process transformation** at the organizational level & Continuously improved processes to increase organizational efficiency.
- ✓ Successfully delivered a project with an extremely tight deadline with the Client's **excellent feedback**.
- ✓ Proficient in setting up the organization projects and process in **Azure DevOps** and **Jira**
- ✓ Successfully contributed to **pre-sales** efforts through product demonstrations and rapid customizations based on client requirements.

DevOps Engineer / Lead

- ✓ Proposed **Git Branching strategies** for implementing Parallel development and suits the agile methodology.
- ✓ Experience in **containerization** of Microservice using **Docker & Kubernetes**.
- ✓ Create and maintain fully automated **CI/CD pipelines** using Azure DevOps build and release pipeline, GitLab, GitHub Action & TravisCI
- ✓ Design and develop highly available, fault-tolerant applications on **AWS & Azure Cloud**
- ✓ Highly involved in all sorts of **troubleshooting** post-build and deployments.

- ✓ Designing, planning, and implementation of **High Availability and Performance optimized Infrastructure** Architecture with effective disaster recovery for critical web applications
- ✓ Ability to translate traditional IT infrastructures to **global cloud deployments**.

Web Development

- ✓ Help developers **architecting** and **debugging** their web applications and IT infrastructure.
- ✓ Development and support of various web applications across various domains using **PHP, NodeJS, MySQL, Advanced Javascript, VueJS**, and other web technologies.
- ✓ **TDD** with PHPUnit in Laravel Framework
- ✓ **Dockerized** Microservice Backend and Frontend Applications.

Technical Details

AWS	EC2, VPC, ELB, ASG, S3, RDS, Route53, EKS, ECS, Fargate, ECR, Elastic Beanstalk, Lambda, API Gateway, SQS, SNS, ElastiCache, WAF, EBS, EFS, Glacier, CloudFront
Azure	VMs, VMSS, VNet, Load Balancer, Application Gateway, Front Door, Traffic Manager, CDN, AKS, ACI, ACR, App Service, ASE, Functions, Blob/Queue Storage, KeyVault
DevOps	Docker, Kubernetes, Helm, Azure DevOps Pipeline, AWS CodePipeline, GitHub Actions CloudFormation, Prometheus, Grafana, GitHub, Bitbucket, GitLab, Sonar Cloud, New Relic, Stackify Retrace, Santry, SEQ Logs
Architecture	Monolithic, Layered/N-Tiered, Microservices, Serverless, Multi-Tenant SaaS
Backend	PHP, Node.js, Laravel, Codeigniter, Zend Framework, WordPress, Drupal, Moodle, Opensis
Frontend	Vue.JS, React.JS (A Little), Advanced Javascript, UnderscoreJS, Lodash
Database	MySQL, MS-Access, MSSQL, PostgreSQL, MongoDB
Unit Testing	PHPUnit
Build Tools	Composer, Laravel Mix, Gulp, Webpack
Project Management	SCRUM, XP, Kanban, Agile, Waterfall
Management Tools	Azure DevOps Boards, Jira, Trello, Asana
Domain Knowledge	Ecommerce, Finance, Hotel & Event Management, ERP, Benchmarking Tools, Amazon Marketplace and eBay Marketplace integration, POS

Academics Summary

Degree	College (University)	Passing Year
Master of E-Business (M.B.A - IT)	Sardar Patel University	2009
P.G.D.C.A	Saurashtra University	2007
B.com with Computer Science	Saurashtra University	2006

Work Experience

Fastrax Infotech Pvt Ltd | Technical Project Manager | Oct 2019 – Present

- ✓ Managed **project scheduling, execution, and resources** for multiple projects to aid in project completion.
- ✓ Monitoring **onshore & offshore delivery** for technical deliverables of concurrent projects; sharing regular projects status/ dashboards with Management and Stakeholders; working as the single point of contact & escalation for the Offshore Teams/Clients
