ACADEMIC PROJECTS

A secure fine – grained access control and data sharing for dynamic groups in cloud computing:

Cloud computing is an emerging computing paradigm that enables users to store their data in cloud server. We then present a fine-grained access control and data sharing for dynamic groups in cloud by using Revocable attribute-based Encryption (RABE) scheme and techniques of identity – based Encryption on (IBE) and attribute – based Encryption (ABE) and cipher text Encoding mechanism.

ACHIEVEMENTS

- Took Salesforce Administration and Development coaching in a reputed institute.
- Received a certificate from “IIT KANPUR” for participating in a Workshop on “Ethical Hacking and Internet of Things”.
- Received a certificate from “PANTECH SOLUTIONS” for participating in a Workshop on “Machine Learning”.
