## WORK EXPERIENCE

### Senior Associate Consultant Infosys

07/2022 - Present

Gurugram, India

#### Achievements/Tasks

- Currently I'm working as a Senior Associate Consultant, I'm leading a team of 4 people. We are responsible for creating production ready code and deploy ETL applications on AWS cloud.
- Process Improvements delivered :-
- 1. Successfully created/deployed applications on cloud using AWS Code Pipeline/GitHub .
- 2. Created DMS Monitoring Bot with the help of AWS CloudWatch Rules/Alarms that can detect and notify upon changing health metrics of various EC2/Lambdas.
- 3. Created an automated framework(using python and pandas) that will create reports for Metric comparison that will compare the key performance indicators for two of our ETL applications.

### Systems Engineer (Digital Cadre)- 3.5 years Tata Consultancy Services

01/2019 - 06/2022

Noida, India

#### Achievements/Tasks

- I have worked with TCS for a Multi-National Drug Development Company. I along with my team manages the clinical trial data in AWS DATALAKE.
- We have created multiple ETL applications that uses clinical trial data to store/extract data from datalake to other sources as per the requirement.
- I have experience in Python, AWS CloudWatch, AWS Code Pipeline, AWS RDS, AWS IAM, AWS Lambda, AWS S3, AWS Glue, AWS Data Migration Task, Python, PostgreSQL, CloudFormation, Cloudwatch, AWS EC2, Step Functions.
