

# ANIL KUMAR

## FRONT-END DEVELOPER

### CONTACT

-  +91 9373609156
-  anilnimiwal.53@gmail.com
-  New Delhi

### TECHNOLOGY

HTML

CSS

Bootstrap

JavaScript

React JS

### EDUCATION

Completed B.Tech(CS) from  
Indira Gandhi Industrial Collage  
Gurugram

### PROFICIENCY SKILL

- HTML
- CSS(SASS)
- Bootstrap
- JavaScript
- React JS

### OBJECTIVE

A curious learner and creative team player, interested in the job role of Software Engineer, where I can utilise my understanding of coding and software development to efficiently fulfill the requirements of clients and customers

### PROFESSIONAL SUMMARY

- Skilled IT professional with **4.1 years of experience** in software design, development, and implementation of various web-based applications.
- Expertise in developing an efficient user interface using Front End Technologies ( **React JS, JavaScript, ES6, Redux, HTML, CSS, Bootstrap, JSX, Typescript** )
- Experience in using React JS components, **Props, React- hooks, React- Redux, Thunk, Saga, Axios, Router** & also known about **Class components & Life Cycle** Methods.
- Experienced in back-end technologies such as **Node JS** and its framework like **Express JS** to develop server-side applications and APIs and proficient writing schemas in **Mongoose** as well as **MongoDB**.
- Experience in Version Control tool like GIT and merging Source code after intermittent Project releases.
- Also basic knowledge about **Docker** and **typescript**. To meet the Business requirements Experience in using **IDE tool** such as **VS Code**.
- Experience of working in Agile methodology - **Scrum**.
- Active participation in daily Scrum meetings and understand business requirements.
- A quick learner with the ability to work under pressure and meet deadlines.

## FAIR SKILL

- Node JS
- Express JS
- Mongo DB
- GitHub

## KNOWLEDGE OF

- Dockers
- TypeScript
- Jest

## WORK EXPERIENCE

Currently working with **Mediasoft Information Technologies Private Limited** from **June, 2019** to till now

## PROJECT DETAILS

- **Project** : Astellas Pharma
- **Client** : Astellas
- **Role** : Software Developer.
- **Description** :- Astellas Pharma-- Astellas Pharma Inc. is a Japanese multinational pharmaceutical company, formed on 1 April 2005 from the merger of Yamanouchi Pharmaceutical Co., Ltd.
- **Roles and Responsibility** - Developed an interactive user interface for Pharma web using **React JS** and leveraged the power of **React Hooks** for efficient state management.
- Skill **HTML ,CSS, javascript, Typescript**
- Developed B2B UI an interactive user interface for
- Actively participated in daily **Scrum meetings** while following the **Agile Methodology**, ensuring clear understanding of requirements and tasks. Designed responsive web layouts using **CSS** and **Bootstrap**.
- Emphasized reusability by creating and utilizing functional components, enhancing code efficiency and maintainability.
- Implemented centralized state management and handled asynchronous actions using **Redux** and **Saga** middleware.
- Tested and integrated **RESTful APIs** using tools like Postman and Axios, collaborating closely with the back- end team to ensure seamless integration.
- Performed unit testing using **JEST** to ensure code quality and maintainability.
- Utilized **Git** and **GitHub** for version control and project management, facilitating smooth code collaboration through efficient pushing and pulling.

- **Project** : Lazada eCommerce
- **Client** : Lazada
- **Role** : Software Developer.

- **Description** :- Lazada is a marketplace owned by Alibaba Group that operates in Indonesia, Malaysia, Philippines, Singapore, Thailand, and Vietnam. It generates roughly \$1.5 billion in annual sales which makes it the biggest ecommerce website in Southeast Asia
- **Roles and Responsibility**:- Developed and maintained the frontend project using ReactJS, Redux, and Bootstrap.
- Created reusable UI components and implemented responsive design using CSS and Bootstrap.
- Collaborated with the backend team to ensure smooth integration of APIs and data flow.
- Implemented client-side form validation and error handling for a better user experience.
- Collaborated with the QA team to perform functional testing and resolved defects.
- Maintained version control using Git and GitHub. Conducted code reviews and provided feedback to the team for code quality improvement

- **Project** : Morrison Supermarkets
- **Client** : Morrison
- **Role** : Software Developer.

- **Description** :- Morrison Supermarkets Ltd., trading as Morrisons, is the fifth largest supermarket chain in the United Kingdom. As of 2021, the company had 497 supermarkets across England, Wales and Scotland, and one in Gibraltar. The company is headquartered in Bradford, England.
- **Roles and Responsibility**:- Attended daily stand-up meetings (**Scrum**) to gather and analyze the requirements.
- Improved and modified the user interface (UI) based on the gathered requirements.
- Implemented responsive web design using **Bootstrap, HTML, and CSS** to ensure a seamless user experience across different devices. Performed unit testing based on defined test cases to verify the functionality and quality of the code.
- Utilized Git for version control management, ensuring proper tracking and organization of code changes.
- Effectively pushed and pulled code to and from the GitHub repository, facilitating collaboration and ensuring code synchronization with the remote repository.
