

ABOUT ME

Full-stack Developer with a proven track record of delivering robust solutions. I possess nearly 6 years of experience leveraging Java, Spring Boot, Microservices, Kafka, AWS, MongoDB, MySQL, Redis, Elasticsearch, and React to create cutting-edge applications. I'm always eager to explore and learn cutting-edge technologies.

EDUCATION

GURU GOBIND SINGH INDRAPRASTHA UNIVERSITY [2013 - 2017]

BACHELOR OF TECHNOLOGY (CSE)

EXPERIENCE

SOPRA BANKING SOFTWARE [Sep 2021 - Present]

SENIOR SOFTWARE DEVELOPMENT ENGINEER 1

Project: Daily Banking Transformation

Description: The project aims to revolutionize the banking experience by developing a comprehensive suite of user-friendly solutions. Its primary objective is to empower customers with convenient access to their accounts, enabling seamless transactions and effective financial management with a focus on security and innovation.

Skills: Java/Kotlin, Spring Boot, Microservices, Kafka, AWS, MongoDB, Redis, Elasticsearch, React, and Kubernetes.

Roles:

- Developed resilient and secure daily banking applications.
- Developed a backoffice application providing a highly interactive user interface.
- Significantly contributed to the development of a 2FA library for enhanced security.
- Mentoring and assisting the team as Deputy Lead, engaged in code reviews to uphold coding standards.

CAPGEMINI [Feb 2019 - Sep 2021]

ASSOCIATE CONSULTANT

Project: Digital Banking Transformation

Description: The project is dedicated to completely adhering to regulatory standards, and fostering innovation through modern technologies to enhance the platform's functionality, security, and efficiency.

Skills: Java, Spring Boot, Microservices, Kafka, AWS, MySQL, Splunk, Jenkins, Docker, and Kubernetes.

Roles:

- Developed solutions adhered to the Payment Services Directive 2 (PSD2) regulations.
- Implemented features to provide law enforcement agencies with controlled access to financial information.
- Implemented CI/CD pipelines, streamlined release cycles, and improved time-to-market.

STJ ELECTRONICS PVT. LTD. [Oct 2017 - Jan 2019]

SUPPORT ENGINEER

Project: Timesheet and Payroll System Enhancement

Description: The project aims to improve the functionality and efficiency of the existing timesheet and payroll system, recording employees' working hours, and automating payroll generation.

Skills: Java, Spring, MySQL, System Analysis, Debugging, and Problem-solving.

Roles:

- Managed support operations, overseeing the adherence to technical, security, and compliance standards.
- Analyzed logs, debugged code, identified root causes, and seamlessly implemented impactful solutions.
- Achieved peak performance and high availability of critical systems by conducting proactive maintenance.
