JAYESH JAISWAL

OBJECTIVE

I am looking forward to work in an organization, which provides the environment for growth with competent and strong leaders in **Manual and Automation Testing** having an experience **in Functional, Non-Functional, Globalization, UI Testing, API Testing, Webservice Testing using REST UI, POSTMAN and Automation Testing (Selenium WebDriver with JAVA)**. I have an urge and inclination for learning new technologies, a **strong work ethic** combined with a commitment to excellence in all projects undertaken.

PROFESSIONAL EXPERIENCE

Capgemini Technology Services India Ltd, Pune. (09/20 – Present)

Software QA

- Understanding **Test Requirements** and analyzing the application under test (**AUT**).
- Co-ordinating with developers and managers in order to understand **complex scenarios**.
- Designing **test scenarios** and **test cases** using various BBT and experience based testing techniques (**BVA, ECP, Use Case, etc.**).
- Performing **Test Case Review**.
- Manual Testing activities like **Sanity, System and Functional, Regression and Retesting.**
- Collecting data for **Data Driven Testing framework.**
- Executing test script using **Selenium WebDriver**, Java and **TestNG** on TDD framework.
- **Regression testing** through Automation with selenium.
- Analyzing Test results and **Bug Reporting through JIRA**
- Deciding **Severity** of the Bug.
- **Retesting** defect fixes on each release build.
- **Database Testing** with **MS-SQL** and **API** Testing with **Postman**.
- Implementing **Bug Life Cycle.**

STRENGTHS

● Work cross-functionally, time management skills, communication skills, team members.
● Problem-solving, Innovation, analytical, articulate.
