Team Size: 12

---

Project Name : Web Application development for Airport Management System  
Client : Cognizant (Internal)  
Technologies : Core Java, JDBC, Servlet, JSP, HTML  
Database : MySQL Server  
Tool & IDE : Eclipse & MySQL Workbench.  
Team Size : 4

Description:

- Developed a **Web Dynamic Project** according to BRD (Business Requirements Document) with help of stepwise process including schema, backend source, user interface and database frame building via **MVC pattern and agile methodology**.

## TRAINING& CERTIFICATION

Core JAVA, Advance JAVA, SQL, PLSQL, JDBC & Servlet

- Trained via 5 month Hands-On (Collections, Exception Handling, Oops concepts). and Code Challenges based Classroom training program
- Organization : Cognizant Technology Solution

## ACDEMICCS

- Bachelor of Engineering from Lakshmi Narayan Institute of Technology & Science, Bhopal during 2013- 2017 with 79.8%.
- Higher Secondary Examination (CBSE Board) with 70.02%.
- Secondary Examination (CBSE Board) with 78.00%.

## EXPERINCE

- Working in **Cognizant Technology Solution ,Pune from Nov 2017 to till date as a Program Analyst.**

## PERSONAL PROFILE

STRENGTH

- Patience and Dedication
- Versatile

EXTERA CRRICULAR

- Playing Guitar
- Fine Arts
