CAREER OBJECTIVE

A dynamic professional with 13 years of rich experience in IT industry, in which I have around 6 years of experience in working with Agile methodology, and currently working as Scrum Master since last 3 Yrs with Sopra Steria. My 10 years of experience as a developer helps me in understand and build complex systems as a scrum master. As a scrum master I focus relentlessly on removing impediments for teams, delivering value with quality and work continuously towards making a self organized and motivated team. I also ensure team understands the benefit of Agile and implement scrum framework correctly in daily activities.

WORK EXPERIENCE

Scrum Master

Sopra Steria

Jan 2018 - current / Noida

- Led and coordinated the daily stand-ups, sprint planning, sprint demos, sprint retrospectives and backlog refinements resulting in on-time delivery.
- Identified and removed impediments that interfered with the ability of the team to deliver the sprint goal resulting in meeting sprint goals.
- Assisted team with making appropriate commitments through story selection, task definition, and feature selection
- Helped the team to develop, capture, and analyze metrics to facilitate team improvements resulting in the automation the unit testing.
- Organized and improved agile practices and values, increasing productivity and overall team satisfaction.
- Trained 150+ colleagues on the agile mindset, processes and frameworks
- Promoted empowerment of the team and encouraged a sustainable pace with high-levels of quality for the team which improved employee retention.

Development Lead

Sopra Steria

Jan 2016 - Dec 2018 / Luton (England)

Senior Software Engineer

Sopra Steria
