- Using Crashlytics and Fabrics for tracking market crashes
- Perform the Integration testing, Sanity, Regression and Ad-hoc testing

# 5	PHED (Public Health Engineering Department)
Role	QE Engineer
Platform	Web application

Description: This is a Government Project, by using this app user can request for the water facilities, apply new connection, do payment for his/her connection and also do complaints.

Responsibilities:

- Involved in designing test cases based on SRS and Test Plan
- Detecting the bugs and classifying them based on the severity and priority
- Involved in Functional testing, GUI testing and compatibility testing
- Regression testing performed on every new build of the application
- Reporting the coverage status of test performed on the daily/ weekly basis

# 6	Doctor Insta (Consult Online)
Role	QE Engineer
Platform	Web application

Description: By using this app user can have an online consult with doctors, physicians, Pediatricians, Dietician, and another specialist in advance.

Responsibilities:

- Writing test cases according to the functional specifications

- Performed Functional and system testing to check the stability of the application
- Performed the different types of testing
- Helped development team in reproducing bugs at development environment
- Involvement in test execution, results analyzing and defect reporting

# 7	OSIM Massage Chair
Role	QE Engineer
Platform	Mobile application

Description: By using this app user can easily download massage chair and also share the same massage chair with the friends via Bluetooth

Responsibilities:

- Writing test cases according to the functional specifications
- Performed Functional and system testing to check the stability of the application
- Performed the different types of testing
- Helped development team in reproducing bugs at development environment
- Involvement in test execution, results analyzing and defect reporting

# 8	Metta
Role	Test Engineer
Platform	Mobile application

Description: By using this app user will get the notifications of Welfare services, News, Upcoming events of welfare association

Responsibilities:

- Writing and upload defect on Jira
- Performed the different types of testing
- Involvement in test execution, results analyzing and defect reporting

# 9	SIT (Scorpio InfoTech)
Role	QE Engineer
Platform	Web application

Description: This website providing a range of affordable custom website designs.

Responsibilities:

- Write the test cases and make the test plan
- Performed the different types of testing

# 10	Ajit Newspaper
Role	Test Engineer
Platform	Mobile application

Description: This app is only for the Android users to read the latest news

Responsibilities:

- Write the test cases
- Performed the different types of testing
- Performed the UI testing

Education:

Qualification Level	Degree/Specialization	School/University	Percentage
B-tech	CSE (Computer Science Engineering)	PTU	76%
XII	Non-Medical	CBSE	55%

Personal Details:

Father's Name: Raj Kumar Sharma

Date of Birth: 13-11-1993
