## **PROJECT SUMMARY**

- **Web Based Audit Management (eTHIC)**
- **Project Summary:**

Web Based Audit Management solution provides various types of department audit modules in banking sectors. It enables a systematic, workflow-driven, risk-based audit process, simplifies work paper management, and provides real-time reporting and intelligence. The web based app has a responsive interface that allows auditors to enter data on-the-go from the convenience of their tablets and mobile devices. It also provides external auditors and regulators with access to audit data for pre-defined time periods and RBI guidelines.

### **Roles and Responsibilities:**

- Understanding the business requirements, preparing test scenarios, test data & test cases.
- Sanity Testing, Smoke & Regression Testing on modified Software Builds.
- Responsible for Integration Testing, Functional Testing, System Testing.
- Preparation of weekly and monthly status reports.
- Reviewed Test Reports and Prepared Summary Reports.
- Verifying basic data through SQL Queries in the database.
- Team Communication and Customer Communication.

## **ACADEMIC DETAIL**

- Completed B.E., Electrical & Electronic Engineering from GRT Institute of Engineering and Technology, in 2020.
- Software Testing (Manual & Automation) Selenium Course Completed at CODING CUB Chennai.
