

## OIC Developer &SOA

M.Ramanjaneya Reddy

**Email:** ramanjaneyareddy82@gmail.com

**MobileNo:**99007111174

## SUMMARY

---

- Total around 5.8year's of experience in development and administration of Oracle Fusion Middleware Technologies like SOA,OSB and OIC.
- Integrated the Cloud applications like Oracle Fusion-> BIP,BICC,REST API's and FBDI data load, SAP Ariba application,Coupa,EPM,HCM,SCM,Procurement and all the other modules.
- Worked on OICS cloud adapters like Salesforce(SFDC),Ariba,Workday,SuccessFactors,SAP,concur adapters, Oracle HCM and created Prebuild integrations between all cloud applications using cloud adapters.
- Experience in Creating integrations on OIC using Cloud adapters like Ariba, Salesforce, SuccessFactors, Oracle HCM and Workday,ORACLE ERP cloud.
- Expertise In BIP,FBDI on Oracle ERP.
- Expertise in Oracle middleware Technologies which includes Oracle Integration Cloud (Oracle ICS/OIC), Oracle SOA Suite (11g/12c) and Oracle Service Bus(11g/12c).
- Well versed with Oracle Fusion Middleware including SOA 11g and 12C (Bpel & Mediator)
- I have involved in requirement gathering, analysis, creating Technical design documents,PPT's and building point to point integration
- Experience in developing and deploying BPEL Process using technology adapters (Oracle Applications, DB Adapter, JMS Adapter, File Adapter and FTP Adapter), Fault Handling (Catchall) and Transformations.
- Very good experience in ERP Procurement (P2P) module, Sourcing and Order to Cash flow
- created the integrations in SOA composite using BPEL and Mediator components, and integrated Master and transactional data and maintained the data filtering using and actions in XSLT transformation.
- Solid understanding in Fusion Middleware Technologies like **OIC,SOA,OSB, proxy, Business Services, BPEL, Mediator, Web Services, WSDL, SOAP, XML, XSD, XQUERY and XSLT. A**
- Expert at working with **OSB , Eclipse**, Oracle **SOA Suite SCA** composites, and activities like publish, service callout, Routing, components like **BPEL** process activities like Assign, Invoke, Pick, Receive, Switch, Flow,Wait,While,etc. in **Jdeveloper**.
- Creating **proxy** and **Business Services** based on WSDL and exposing them as a web service.

- 
- Create Prebuild integrations between different cloud applications like Ariba, SuccessFactors, Service Now, Concur, Workday and so on.
  - Worked with **Tortoise SVN**, Putty, WinSCP, VNC Viewer, FileZilla and Linux.
  - Worked on Unit testing, and created test Cases, and Used SOAP UI, Postman for testing.
  - Experienced in monitoring of servers and service.
  - Worked on Administration like Installation of Soa, OSB and OIC servers, Configuration of JNDI for DB, JMS Adapters, Jks Configuration and SSL Configurations on console.
  - Worked on Debugging the Issues.
  - Strong **communication, motivational** and **presentation** skills.
  - Self-motivated, self-learner, team player, detail-oriented and ability to handle multiple tasks and adapt to new technologies and applications.
  - Excellent work ethics, team oriented with strong analytical and leadership qualities.
  - Worked on Oracle cloud implementation projects using OIC.
  - Worked in Multiple cloud adapters like SFDC, ORACLE ERP CLOUD, WORKDAY, SAP Ariba, SERVICE NOW.
  - Worked on OnPremise integrations like SAP, ORACLE EBIZ
  - And used different integration patterns like ORCHESTRATION and SCHEDULE ORCHESTRATION and Map data.
  - And used the OIC design activities like STAGE, STAGE FILE, SWITCH, FOR EACH, WHILE LOOP, EMAIL...ect.
  - Involved in unit testing of OIC integrations and migration.
  - Prepared Technical SPEC for the for the integrations which areas developed by me
  - Used JAVA libraries for few of the customisations on mappings.

## **EMPLOYMENT (OLDEST TO LATEST)**

---

### **Organization1 :-**

<b>Organization</b>	: Techfosys software solutions pvt ltd
<b>Period</b>	: 2018-Jan-20 Jan Sep-20-2020
<b>SKILLS</b>	: Oracle Integration Cloud Service (OICS).

### **Organization 2:-**

<b>Organization</b>	: Techfosys software solutions pvt ltd
<b>Designation</b>	: SeniorConsultant
<b>Period</b>	: Sep-28-2020 to 30-03-2021

### **Organization 3:-**

<b>Organization</b>	: Techfosys software solutions pvt ltd
<b>Designation</b>	: Consultant
<b>Period</b>	: Apr 2021 to Dec 2021

---

**Organization 4:-**

**Current Organization** : Techfosys software solutions pvt ltd

**Designation** : SeniorConsultant

**Period** : Dec 2022 to Dec Till date

---

**PROJECT # 1 (LATEST TO OLDEST)**

---

**PROJECT 1** : Fujitsu

**Organization** : TCS

**Duration –** : Dec 2022 to Till date

**Role** : Integration OIC Developer and support

**Platform** : Oracle integration cloud (Paas)

**Description :**

Fujitsu was established on June 20, 1935, which makes it one of the oldest operating IT companies after IBM and before Hewlett-Packard,[4] under the name Fuji Telecommunications Equipment Manufacturing as a spin-off of the Fuji Electric Company, itself a joint venture between the Furukawa Electric Company and the German conglomerate Siemens which had been founded in 1923. Despite its connections to the Furukawa zaibatsu, Fujitsu escaped the Allied occupation of Japan after the Second World War mostly unscathed.

**Responsibilities :-**

- In this project my role is OIC integration supporting and developement
- Played as a team lead role which contains 5 people of team and managing the scrum calls and getting the status from individuals and sending the weekly report.
- Have done so many integration enhancements as the project is in go live.
- Servicenow is widely used for monitoring the incidents, Change requests and all kinds of tickets.
- Woked on resolving the issues and provided on time resolution with out escatlation.

**PROJECT 2 :AIR BNB**

**Organization** : Oracle

**Duration –** : jan 2021 to Dec 2021

**Role** : Integration OIC Developer and support

**Platform** : Oracle integration cloud (Paas)

---

**Description :**

Airbnb, Inc is an American San Francisco-based company operating an online marketplace for short- and long-term homestays and experiences. The company acts as a broker and charges a commission from each booking. The company was founded in 2008 by Brian Chesky, Nathan Blecharczyk, and Joe Gebbia. Airbnb is a shortened version of its original name, AirBedandBreakfast.com. Airbnb is the most well-known company for short-term housing rentals.

- **Responsibilities :-**

- In this project my role is OIC integration supporting and developement
- Played as a team lead role which contains 5 people of team and managing the scrum calls and getting the status from individuals and sending the weekly report.
- Have done so many integration enhancements as the project is in go live.
- Servicenow is widely used for monitoring the incidents, Change requests and all kinds of tickets.
- Woked on resolving the issues and provided on time resolution with out escatlation.

- **PROJECT # 2**

---

**PROJECT : SRILANKAN AIRLINES**

**Organization :** Infosys

**Duration – :** Sep 2020 to Jan 2021

**Role :** Integration OIC DeveloperS

**Platform :** Oracle integration cloud (Paas)

- **Description :**

- SriLankan Airlines (formerly known as Air Lanka) is the flag carrier of Sri Lanka and a member airline of the Oneworld airline alliance. It is currently the largest airline in Sri Lanka by number of aircraft and destinations and was launched in 1979 as Air Lanka following the termination of operations of the original Sri Lankan flag carrier Air Ceylon.

- **Responsibilities :-**

- In this project my role is OIC integration supporting and developement
- Played as a team lead role which contains 5 people of team and managing the scrum calls and getting the status from individuals and sending the weekly report.
- Have done so many integration enhancements as the project is in go live.
- Servicenow is widely used for monitoring the incidents, Change requests and all kinds of tickets.

- 
- Worked on resolving the issues and provided on time resolution without escalation.

- **PROJECT # 3**

---

- **PROJECT : Kohl's**  
**Organization : Oracle**  
**Duration : Jan 2019 Aug 2020**  
**Role : Integration OIC Designer and Developer**  
**Platform : Oracle integration cloud**
- **Description :** Kohl's is an American department store retail chain, operated by Kohl's Corporation. It currently has 1,165 locations, operating stores in every U.S. state except Hawaii. The company was founded by Polish immigrant Maxwell Kohl, who opened a corner grocery store in Milwaukee, Wisconsin, in 1927
- **Responsibilities :**
  - Developing the integrations on OIC as per the Integration design architecture and testing Responsibilities:
  - In this project we have integrated in the Systems like Siebel CRM with Legacy Systems and some other third party Applications.
  - Designed and created complete business processes for orchestration using different actions and message flows in BPEL.
  - Understanding the functional requirements & Design Specifications.
  - Connected with functional team to understand the exact functionality that I need to implement.
  - Gathered all resources which are required to start the development.
  - request/response between the Source/Target systems with the protocols XML/http,
    - SOAP/http.
  - Configurations and deployment on different environments and performed Sanity test.
  - Involved in unit testing in all environments like Dev, QA, UAT, PROD and delivered the services on time.
  - Prepared technical design documents.

- **PROJECT # 4**

---

**PROJECT 4 : Republic Services**  
**Organization : Delta Technologies**  
**Project name : Integrations between Workday and Oracle HCM (Employee on Boarding)**

---

**Duration** : Dec 2018 to Jan 2019  
**Role** : Integration SOA and OIC Designer and Developer

**Description :**

Republic Services, Inc. is a North American waste disposal company whose services include non-hazardous solid waste collection, waste transfer, waste disposal, recycling, and energy services. It is the second largest provider of waste disposal in the United States (as measured by revenue) after Waste Management.

• **Responsibilities:**

- In this project we have integrated the Systems like Siebel CRM with Legacy Systems and some other third party Applications.
- Designed and created complete business processes for orchestration using different actions and message flows in BPEL.
- Developed end-to-end SOA services using Jdeveloper.
- Deployment of SOA Services Jdeveloper & EM console
- Created end-to-end SOA services using J Developer.
- Understanding the functional requirements & Design Specifications.
- Connected with functional team to understand the exact functionality that I need to implement.
- Gathered all resources which are required to start the development.
- Develop SOA services performing business specific logics and transform request/response between the Source/Target systems with the protocols XML/http, SOAP/http.
- All transformations are done using XSLT and Assign.
- Configurations and deployment on different environments and performed Sanity test.
- Involved in unit testing in all environments like Dev, QA, UAT, PROD and delivered the services on time.
- Used Tortoise SVN version control tool for checking the code.
- Involved in deploying the services in different environments like Dev, QA and UAT.
- Connecting weekly call with on shore team and providing the status of development.
- Prepared technical design documents.
- Developed a BPEL process to publish legacy data into Oracle E-Business Suite using Oracle APPS adapter and DB adapters
- Worked on enhancements for my services.
- Providing to weekly and monthly incident reports to SEN, TZA, GHA, RWA, DRC, CHAD regions.
- Involve the peer review of code as per the coding standard
