## Professional Summary

A Frontend Developer with 6.3 years of experience in Angular8+ versions, Bootstrap4, HTML5 and CSS3 following Agile Methodologies. Committed to delivering responsive, pixel perfect and proper functioning deliverables having quality code with zero escalations.

## Education

- Bachelor of Technology - GL Bajaj Institute of Technology and Management, AKTU in 2017, in Electronics and Communication (ECE) with 75%.
- (10+2) - Dr. Virendra Swaroop Education Center, ISC Board, with 70.5%.
- (10) - Dr. Virendra Swaroop Education Center, ISC Board, with 80.3%.

## Technical Skills

- **Front-end:** Angular 4/5/7/8/10/12/16/17, HTML5, CSS3, Bootstrap, RxJS, javascript, typescript
- **Third-party libraries:** Highcharts, Kendo-UI, angular-material
- **Version Control:** GitLab, GitHub
- **Database:** SQL
- **DevOps:** Azure, Jenkins
- **Tools:** Visual Studio, Visual Studio Code, JIRA

## Synopsis:

- Designed and Developed Analytic Dashboard Page using HighCharts for Data Visualization.
- Worked on developing a shareable Library using Angular Library to share components with different applications and enhance reusability of components.
- Integrated payment method and location detection functionalities.
- Used dependency injection to inject angular services with data binding from rest APIs and custom services, as well as built custom directives to provide reusable component.
- Managed a team of 4 members.
- Collaborated in team-based, Agile environment to accomplish objectives and contributed in project procurement meetings.
- Experience of working in a client-side project with good understanding of Business requirements.
- Have participated and aware of all sorts of agile ceremonies (user story grooming, sprint planning, sprint retrospective).

## Professional Experience:

- **Helloverify India Pvt. Ltd.**

*Noida, July'2023 – till date*

**Technology used:** Angular v16/17, Azure, RxJs, Bootstrap5, CSS3, Angular material, Jasmine & Karma.

**Project:** Candidate Invite portal for blue collared vertical to collect personal documents and current location.

**Responsibilities**

- a) Contributed in developing cross-platform & multiple browser compatible SPA for the complete background verification journey for clients including form filling modules using reactive approach using Rxjs, reactive forms, angular material with Angular 16/17.
- b) Integrate the Payment Method by using Razorpay money gateway.
- c) Integrate Google maps and Google translations.
- d) Performing and implementing continuous security testing for confidential client data.

- **Cognizant Pvt Soln.**

*Hyderabad, November '2021 – June '2023*

**Technology used:** Angular v8/10, Azure, RxJs, Bootstrap5, CSS3, Kendo UI, Jasmine & Karma.

**Project:** Trane Technologies – A huge dashboard application with information to manage the HVAC units installed at site and record their performances.

**Responsibilities**

- a) Work in Test Driven Development environment, leveraging QA automation test suite to provide unit tests using Jasmine & Karma and integration tests for all new functionality.
- b) Contributed to code reviews and supervising new members to maintain and deliver high quality deliverables.
- c) Develop cross-platform & multiple browser compatible applications using Angular 8/10 to interface with native app features.
- d) Taking an active role in structuring and improving the performance our single page applications to make them easy to maintain and to ensure they are highly modularized.

- **Accenture Pvt ltd.**

*Gurgaon, March '2018 – October '2021*

**Technology used:** Angular v4/5, Azure, RxJs, Bootstrap5, HighCharts, Kendo UI, Jasmine & Karma.

**Project:** Ecolab – A dashboard application to visualize the huge amount of unit readings using graphs and grids and help in conserving energy throughout globe.

**Responsibilities**

- a) Designed and Developed Analytic Dashboard Page using HighCharts for Data Visualization and Kendo grids for grid views with Angular 4/5.
- b) Integrate API/Webservices and bind the data with UI as per the UX wireframe designs.
- c) Deployment of code using CI/CD pipelines over Azure.
- d) Plan and estimate projects requirements as per the sprint's capacity following Agile methodologies strictly.

## **Certifications**

- Microsoft 70-480: Programming in HTML5 with Javascript and CSS3.
- Azure-900: Basics of Azure Cloud base.

## **Achievements**

- Recognized as Best Coder of the month in the account in Cognizant.
- Star of the Month Award from client for brilliant performance.
- Sparkling Star Award from Accenture for good performance.
- 3 times awarded with Accenture ATCI recognition certificates for 'Nice work'.
