📍 New Delhi, India

## EXPERIENCE

### Lead SDET

#### Paytm

📅 04/2019 - Ongoing 📍 Noida, India

- Co-Worked and created api test framework using TestNG with Rest-Assured, Springboot for middleware services **UPI, AePS, KYC, Unified Transaction History (one passbook), Real time reconciliation**
- Leading** and handling quality decisions for Finance Technology teams.
- Qualitatively and Quantitatively delivering functionality, **CICD** activities
- Worked with **appium** for **Android/iOS** app automation on **real device/emulator**.
- Among other utilities, created integration **mock service** with **SpringBoot**, java and exposed it as an api with DB connectivity.

### Engineering Associate

#### Deutsche Bank

📅 2017 - 2019 📍 Pune, Maharashtra

- Co-created and maintained BDD/TDD framework for **Regulatory Transaction Reporting** using **Cucumber** and Java
- Created **Selenium Webdriver framework** with **Java** && TestNG for **Risk Assessment application**

### Senior QA

#### Freecharge Payments, Snapdeal

📅 03/2014 - 06/2017 📍 Gurugram, India

- Functional and Automation QA for **backend REST api's** and mysql database validations for **Identity Management System**
- Automated user data migration flows **simulating real user's data** including **wallet money, addresses, orders, user default values**

### Associate SE

#### Fiserv

📅 2011 - 2014 📍 Gurugram, India

- Automated **client desktop application** using **QTP/QC** for **Loans and Retirement plan modules** using **vb scripting**.

## EDUCATION

### Bachelor of Engineering (Elect. & Comm.)

#### Kurukshetra University

📅 2010 - 2014 📍 India

## FIND ME ONLINE

[hashnode.com/@prateek18](https://hashnode.com/@prateek18)

## SKILLS

Java SQL Jenkins

RestAssured Selenium TestNG

Agile git JIRA/TFS CICD

Cucumber/BDD SpringBoot

## DATALAKE/DB'S USE

mysql, Oracle DB, mongoDB

kafka, aerospike, aws ES

## OWN PROJECTS

### Realtime transactions (Java)

- Implemented realtime backend service using **SpringBoot, JPA** with **mysql DB** to **post/get transactions**
- Working on same feature using Cucumber and Java as a **techno functional** clone

### Contact Management System

A mini project that :

- takes user input to persist data in mysql.
- fetches contact details** with **exact input** or with **fuzziness logic** to **list matching results**.

### Utilities

- Login/Authorization** functionality with **QR** in Selenium Webdriver and Java
- 1-5 \* Hackerrank Practice test Solutions
- JSON comparator with diff or heterogeneous data

\* Code pushed in github repo

## VITAL INFO

### Domains

Investment Banking, FinTech/Payments, E-commerce

### Languages

Java, vb script, Python - learning
