PROJECTS

- **Dashboard**

This dashboard is being prepared by MS Excel and the data provided. For preparing this dashboard, concepts used are pivot tables, pivot charts, slicers etc. The link for my project is- https://drive.google.com/open?id=1OpAaQHWDC_lkgaeb1jltedby2KEbYLyA.

- **In silico screening of potential inhibitors of Dengue virus.**

In this project, different tools of bioinformatics are used to find that nutraceuticals are better than antibiotics. This was proved by docking of ligand with protein and comparing the Gibbs free energy change values and found out that curcumin is the best nutraceutical for inhibition of Dengue virus.
