PROFILE SUMMARY

I'm a skilled software engineer adept at designing and developing robust, scalable, and high-performance software solutions. My expertise spans various programming languages, software development methodologies, and tools, enabling me to tackle diverse challenges effectively. I am deeply passionate about innovation, problem-solving, and delivering exceptional user experiences. Furthermore, I possess strong communication and collaboration skills, with a proven ability to thrive in team environments.

EDUCATION

I.T.S Engineering College, Greater Noida   **Aug 2016 - July 2020**

Bachelor in Computer Science & Engineering, 79.45%

EXPERIENCE

Software Engineer: HCL Tech   **Jan 2022 - Present**

- Proficient in developing and maintaining web applications using the MERN Stack, contributing across the entire software development lifecycle
- Skilled in utilizing React.js to craft responsive and interactive user interfaces, integrating state management libraries like Redux for optimized data flow.
- Competent in executing code compilation, managing dependencies, and conducting testing for seamless software deployment.
- Proficient in implementing custom UI Components and layouts adhering to Material Design guidelines to ensure visually appealing and user-friendly interfaces.
- Adapted communication styles to effectively collaborate with diverse team members and stakeholders.
- Conducted code reviews and provided constructive feedback to team members to ensure code quality and consistency.
- Adapted Quickly to changes in project scope and priorities maintaining project timelines and deliverables.
- Optimized website performance to improve page load times and enhance user experience.
- Possess strong analytical skills to comprehend business requirements and enhance product marketability.
- Analyzed feedback to improve product features and enhance user experience.
- Achieved Good performer status for completing targets consistently.
- Collaborated with cross-functional teams to work on community-based projects.
- Optimized multiple xApps into networks and validated performance using Viavi's testing tools.
- Enhanced xApps quality by implementing rigorous testing procedures and quality control measures.
- Familiarity with CI/CD pipelines, containerization technologies such as Docker, and tools like Github Actions.

Full Stack Developer: QSS Technosoft Pvt. Ltd   **March 2020 - Sep 2020**

- Strong understanding of JavaScript, HTML5, and CSS3 for front-end development.
- Experience with version control systems like Git and collaboration platforms like GitHub.
- Integrated RESTful APIs with React.js front end to fetch and display dynamic data.
- Solid understanding of server-side JavaScript programming using Node.js for building scalable and high-performance web applications.
- Strong problem-solving and debugging skills, with the ability to identify and resolve technical issues efficiently.

SKILLS

- HTML, CSS & Javascript
- Bootstarp & Tailwind CSS
- React.js
- Node.js
- Express.js
- MongoDB
- MySQL
- Firebase
- Docker
- Kubernetes
- Jenkins
- Git, GitHub & GitLab
- Flutter
- GoLang, C & C++
